

## WellO2 instructions: removing the lid from the basket

1. Grasp the lid with one hand and hold the basket with the other.

2. With your thumb, press the semi-circular area on the lid only on one side.

3. At the same time, pull the lid at the opposite side of the container, so that the attachment peg of the container detaches from the lid.

4. Pull the lid off the container.
