

# AFFINITY HIS-TAG PURIFICATION

## TECHNICAL SPECIFICATIONS NTA Agarose BULK resins NICKEL NTA Agarose Resin

|                         |                                  |
|-------------------------|----------------------------------|
| PRODUCT                 | Nickel NTA Agarose Resin         |
| CAT. No.                | 6BCL-NTANi-X                     |
| BEAD GEOMETRY & SIZE    | Spherical, Standard: ~ 50-150 µm |
| CROSSLINKED             | Yes                              |
| AGAROSE %               | 6%                               |
| LIGAND                  | Nitrilotriacetic acid (NTA)      |
| STATIC BINDING CAPACITY | 50 mg / ml gel <sup>(1)</sup>    |
| ANTIMICROBIAL AGENT     | 15% Ethanol of total volume      |
| STORAGE TEMPERATURE     | 4 - 8°C                          |

X: Product Quantity (25 or 100 ml)

<sup>(1)</sup> Static Binding capacity will modify for each target protein.

For laboratory use only. Not for use in diagnostic or therapeutic procedures.
