

Cryogenic mask

PEEL-OFF
MASKS

PROFESSIONAL
& RETAIL

The + Sensation

The menthol cryo complex contained in the mask has a **calming and refreshing action**. Spirulina, coming from the marine world, strengthens this feeling thanks to the remineralising minerals and trace elements it releases.

The + Texture

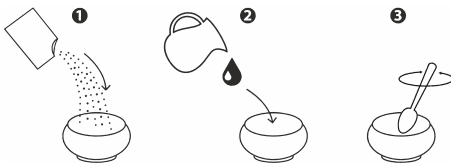

Rich in alginates, this peel-off mask perfectly fits the contour of the face **like a second skin**. Alginate is a natural substance extracted from brown seaweed. The mask has a perfect «skin-hgging» affect and **can be easily peeled off in one piece**.

It is suitable for all skin types, even the most sensitives ones.

Properties & Ingredients

Spirulina	Spirulina maxima is a micro alga belonging to the Cyanophyceae class (blue algae). This exotic blue alga, grows in soft waters of some lakes rich in Sodium bicarbonate content. The zinc and selenium contained in spirulina act in synergy with vitamin E and pigments (beta carotene, phycocyanin, chlorophyll, polyunsaturated fatty acids) for purifying and anti-oxidant effects . The skin recovers firmness, elasticity and suppleness for a fresh complexion.
Menthol	Extracted from essential oil of Mentha Arvensis, the menthol is used for its cooling and relaxing effects . The skin is toned and revitalized.

Ritual of Beauty

Pour 90ml of water at 20°C on the 30g of powder. Stir quickly and vigorously during one minute to get an homogeneous paste. Immediately apply the paste on the face. Leave it for at least 15 minutes, then remove it by peeling off in one whole piece.

Durability : 36 months
