

FUN NAMES. SERIOUS COFFEE.

Why partner with us for your coffee? We *could* tell you all the typical company facts (like we're a small-batch, woman-owned specialty roaster that gives back to dogs in need; and that we're very conscientious about roasting only ethically sourced beans) **but instead...**

Here's what you get when you partner with us:

- Coffee with personality! We really do take our coffee seriously, but after that, cards are off the table. Roasts and blends with names like *Zoomies*, *Muddy Paws*, *Sploot* and *Squirrel!!*™ are carefully developed with delicious and distinctive flavor notes.
- Built-in promotional power and customer engagement because helping dogs (and cats!) through every purchase is built into our business model.
- Coffee that builds loyalty! We team up with you to select roasts your customers will love.
- Personalized service with in-person training for your team so they can speak Fetch fluently for a better customer experience.
- Friendly, ongoing support for your staff.
- Customized roasts and blends available! Talk with us about developing a proprietary blend for your shop or business. It's more accessible than you may think.
- Quarterly updates about current supported organizations to promote online, in-house, or both.
- Opportunity to support your local shelter or rescue for direct community impact.
- A sign and/or window cling for your shop.
- Specialty coffee, small-batch roasted. (Yes, we still had to say it 'cause it's pretty darn important.)

LET'S TALK!
