

SIZE GUIDE

Bracelets

The way you wear an item of jewellery is unique to you, so the way you wear a bracelet is subjective. How do you like to wear yours? Do you like it to move about or prefer something that fits more closely around your arm? Whichever Fope bracelet you choose, they all have different characteristics and ways to be worn.

FLEX'IT BRACELETS

Flex'it bracelets are a patented Fope exclusive: made entirely from 18 carat gold, there are no clasps or fastenings because they are expandable. So besides being elegant, they are also very comfortable. To find the right size, all you have to do is measure the circumference of your wrist. Use a tape measure, or a piece of thread or a strip of paper and then measure it against a ruler, then compare it with the table below.

SIZE	XS	S	M	L	XL
WRIST MEASUREMENT IN CM	15	16	17	18	19

The bracelet's diameter can be expanded by up to 30% and the bracelet's flexibility makes it easy to wear: just slip it on over the fingers down to the wrist. That's all you have to do.

BANGLE

FOPE bangles are rigid with a gold core that makes them supple enough to be easy to wear. They can be open, crossover or double-banded.

To find the right one for you, measure the circumference of your wrist using a tape measure (or a piece of thread or a strip of paper and then measure it against a ruler), then compare it with the table below. We recommend adding at least a centimetre to the measurement you have taken to find the perfect fit.

SIZE	S	M	L
WRIST MEASUREMENT IN CM	14 - 16	16,5 - 18,5	19 - 22

CLASP BRACELETS

Fope clasp bracelets feature a small lobster clasp coordinated with the design of the chain. The standard size (19) usually fits all wrists. If you have a special request, please send it to us.

SIZE GUIDE

Rings

There are two types of Fope rings, each one with different characteristics that change its fit and comfort. The best way to find the right size is to use a ring that you already wear as an example. Below is some information to guide you through making the right choice.

FLEX'IT

Flex'it rings reflect the concept of expandability, just like Fope bracelets. This means your ring is adaptable, so you can choose to wear it on a different finger and feel comfortable at any time of the day whatever you're doing.

SIZES	XS	S	M	L	XL
RING SIZES	6 - 9	10 - 13	14 - 17	18 - 21	22 - 25

To choose the right ring for you, remember that Flex'it rings are a generous fit and if you are not sure which size to choose between two sizes, choose the smaller of the two.

CLASSICS

The most common size is 14, which we consider to be standard, but to find your own size, take one of your rings that fits you properly and measure its diameter by drawing the inside circumference on a sheet of paper. Alternatively you may use the table below, but make sure that it is printed correctly.

RING SIZES	12	13	14	15	16	17	18	19	20
------------	----	----	----	----	----	----	----	----	----

Standard ITA	Standard FR e DE	Standard USA	Standard UK
12	52	6 1/4	M
13	53	6 1/2	N
14	54	7	O
15	55	7 1/4	0-1/2
16	56	7 1/2	P
17	57	8	Q
18	58	8 1/4	Q-1/2
19	59	8 1/2	R
20	60	9	S

Check your printer settings to ensure that the line measures exactly 50 mm

SIZE GUIDE

Necklaces

While the fit of necklaces is subjective and depends on the height and the frame of the person wearing them, you can get an idea of how the different lengths look by referring to the example image to the side.
