

APS90

WHEELED FOLDING LEVER

Versatile wheeled folding lever, designed for use with DOA cover lifters and their accessories in demanding operations and opening of heavy manhole covers with minimum effort and maximum safety.

Use 1: magnetic opening with single CL10 or CL1.

Use 2: opening with two CL10 in parallel joined with connecting "bridge" on heavy lid.

Use 3: mechanical opening with locking clamps.

Extendable and tilting upper handle.

Use 4: magnetic opening with magnet permanent (PM400 or PM500) for very heavy manhole cover.

TECHNICAL CHARACTERISTICS

Code	K0262	
Weight	Kg	10
Long lever length retracted / extended	cm	97 / 160
Short lever length retracted / extended	cm	40 / 56
Lifting weight	Kg	600

Use 5: mechanical opening with BT9 ITALIFTERS bar.
