

CL11 ATEX

MAGNETIC COVER LIFTER FOR ROUND AND SQUARE LIDS

Universal manhole cover for round, hinged or square manhole covers, usable in 4 different ways, suitable for lifting moving and repositioning most of manhole covers, drains, in ATEX areas.

Suitable for round cover/lid.

Spark-proof metal soles.

Extendable front lever that allows the right lift geometry and ensure the full strength in lifting and turning upside down of hinged lids.

TECHNICAL CHARACTERISTICS

Code	K0326	
Weight	Kg	7
Base dimension	cm	21 x 16
Lengthen extension	cm	70
Dimension folded	cm	55 x 16
Lifting power	Kg	400 (in ideal conditions*)
Number and type of Magnets	16 neodymium magnets	
ATEX category/class	II3G c IIBT6 -20°C<Tamb<+50°C	

* Attraction force tests performed on a C36 iron base with a thickness of 18 mm. The forces of attraction can vary according to the thickness and material of the base to be lifted. Tolerance ± 5

ACCESSORIES

Anti-magnetic protective sack **Cod. A221006**

It prevents accidental contact between the magnetic plate and metal objects and for safety transport or storage.
