

# Magnetic Sweeper (PPM Series)

This hand held magnetic sweeper provides the perfect solution for picking up small ferrous metal objects, such as nails, nuts, bolts, paperclips and metal shavings from a workshop or garage floor. The magnetic sweeper is also popular with horse owners for removing nails and other metal objects from bedding and courtyards, reducing the risk of foot injuries to the horses

Model Ref	Width (mm)	Length (mm)	Grade	Full Extended Height (mm)	Weight (kg)
PPM-600	400	100	Ferrite Magnet	1100	5

## The perfect solution to clearing small ferrous metal objects
