*Weights are per linear metre length of chain.

YKST - Adjustable chain stops

Yale chain stops have been developed for Yale hoists with round-section steel chains as additional protection against run through.

The two available sizes cover two different ranges of chain sizes. The load capacity indicated on the chain stop is the maximum working load limit (rated load) that must not be exceeded by the respective hoist used.

Size	Suitable for chain mm/inch	Capacity WLL kg	Article no.
1	5.6 - 8mm	1600	00100115
2	9 - 11mm	3400	00100110
3	5/8" x 3/8"	750	00100146
4	1" x 1/2"	1500	00100143
5	1 1/4" x 5/8"	3000-10000	00100156

KKL - Chain claw

Yale chain claws have been developed specifically for us with Yale Utility hoists.

The two available sizes cover two different ranges of chain sizes. The load capacity indicated on the chain stop is the maximum working load limit (rated load) that must not be exceeded by the respective hoist used.

Model	Suitable for chain mm	Capacity WLL kg	Article no.
KKL 2000	7 - 8mm	2000	192080829
KKL 3150	10mm	3150	192080830
