

PRO+™

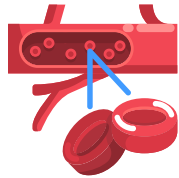

For Professional Environments *FDA Cleared, Class II Device

WHAT DOES IT DO?

Provides Pain Relief for:

- Arthritis
- Joint Pain
- Muscle Spasms
- Strains & Sprains

- Health Benefits:
- Muscle Relaxation
 - Increased Microcirculation
 - Engagement of the Parasympathetic Nervous System

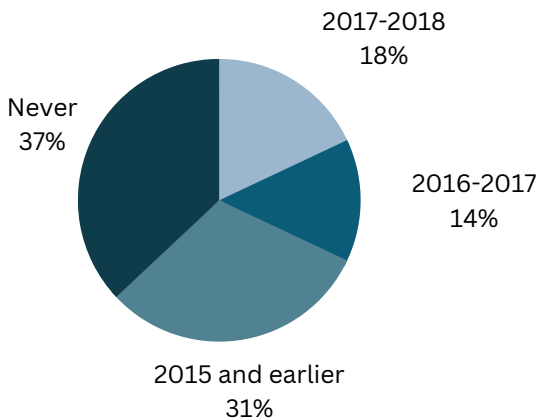

WHY NOW?

Because of the ongoing pain epidemic, many individuals are prescribed opioids for pain relief.

- A 2018 study found that 63% of adults in America had received at least one prescription for opioids.
- 91% of them refilled AT LEAST once.
- The CDC reported that over 142 million prescriptions were written in 2020, averaging about 43.3 prescriptions per 100 people.

WHY THE PRO+?

According to the CDC, at least 50.2 million people are living with chronic pain.

- That means 1 in 5 people are suffering from chronic pain.
- Another 8% from high-impact chronic pain.

The AVACEN PRO+ increases local circulation and provides patients with temporary muscle relaxation.

- This provides a noninvasive and drug-free alternative to pain relief for all of those who are suffering.
