

ELECTRIC DELUXE ROOF HATCH

Electric Drive • Requires 12V Service

DOUBLE PANE ACRYLIC

(light gray, cannot tint) 5.25 times more thermally efficient than glass and 2.14 times lighter than glass.

BREATH-ABILITY

The Roof Hatch features a breathable seal that prevents the entry of dust, but allows for some breath-ability in the cabin.

STRONG MATERIAL

The body is high strength white ABS.

IMPACT RESISTANT

17 times more resistant to impact than glass. Does not shatter!

DOT CERTIFIED

and meets ECE standards.

UV RESISTANT

Less than 2% clarity loss over 10 years in full sun.

ROOF HATCH REMOTE

opens and closes the roof hatch.

REMOTE CONTROL SWITCH

enables/disables the remote

OPEN & CLOSE SWITCH

on trim operates roof hatch without remote.

RAIN SENSOR OVERRIDE SWITCH

allows for control over the rain sensor.

BOSCH DRIVE MOTOR

and a removable emergency hand crank. These hatches have been tested to 5000+ cycles with no failure.

RAIN SENSOR

designed to close an open roof hatch if it is raining and water contacts the sensor.

ROOF HATCH TRIM

Bright white LEDs can serve as primary light in most cabins. Mounting is by adhesive and clips.

OPTIONAL SPOILER

has a white acrylic exterior laminated to a fiberglass interior layer. This spoiler is highly recommended if the front of the hatch is exposed to high speed oncoming air / water. If the hatch is mounted behind a solar panel or other wind break, it would not be necessary.

BLIND & SCREEN

Pleated retractable blind and screen with reflective top side for maximum thermal efficiency.

FULL PARTS DEPARTMENT • 1 Year Manufacturer's Warranty
