

CONCRETENATION

METICULOUSLY DESIGNED ETHICALLY
CRAFTED CONCRETE PRODUCTS

C|N MORE THAN A BRAND

Concrete Nation is an award-winning, international architectural concrete design and manufacturing company with a commitment to quality craftsmanship, innovation and exceptional customer experience.

Striking the perfect balance between form and function, our luxurious and ethical freestanding concrete baths and basins are meticulously designed and handcrafted by our passionate team of artisans at Burleigh Heads, Australia, and coveted by architects and interior designers across the globe.

We pride ourselves on offering an exceptional end-to-end experience and work directly with individual customers as well as builders, interior designers, architects and developers for residential, commercial, multi-residential, hospitality and retail projects across the world.

Our concrete basins and baths are sold exclusively by Concrete Nation online and displayed at select premium showrooms and retail outlets within Australia and internationally.

Concrete Nation designs have been featured in respected international publications such as Domino, ELLE Decoration and Architectural Digest India.

ETHICS + SUSTAINABILITY

As the global leader in architectural concrete design, Concrete Nation is committed to finding ways to minimise our environmental impact to continually improve on the quality of our world-class concrete products and ensure they are safe for our clients and the environment.

We use a zero VOC concrete composition and our handcrafted products are sealed with a food-safe, UV stable, low VOC sealer.

We refrain from machinery-aided manufacturing and made the switch to renewable energy with our HQ run solely on solar power.

OUR COLLECTION

As a passionate team of artisans and innovators, Concrete Nation prides ourselves on fostering innovation and pushing boundaries when it comes to product development.

Our collection of artisanal freestanding concrete baths, bench-mounted and freestanding Column basins are both durable and functional and designed to work back with any interior style.

We care deeply about every single handcrafted product we create, and every project that carries the Concrete Nation name.

2021 BASIN COLLECTION

FREQUENTLY ASKED QUESTIONS

HOW ARE C|N PRODUCTS MADE?

Each piece within the CN collection is meticulously hand crafted in Burleigh Heads Australia by trained artisans from start to completion.

Concrete Nation has spent the last ten years perfecting their high-performance concrete mix to maintain the natural look of concrete while infusing it with beautiful colours. Tinted oxide is added to the concrete mix so the colour runs through the product.

ARE OUR PRODUCTS SEALED?

All Concrete Nation products go through a stringent sealing process, using several coats of a penetrative sealer which is absorbed into the concrete. A topical sealer is then applied to give it a smooth and silky finish.

DO PRODUCTS NEED TO BE RESEALED?

Each piece within the CN collection is sealed with a deep penetrative sealer so resealing is not required. In the unlikely event that a product does need to be resealed, Concrete Nation can provide a refresh kit with simple instructions.

WHAT IS TO BE EXPECTED WITH THE FINISH OF C|N PRODUCTS?

The focus at Concrete Nation is to maintain the natural beauty of concrete. This includes colour movement and small air pockets on the exterior of the product. The inside of all products will always be smooth and free from air pockets.

HOW ARE THE PRODUCTS PACKAGED?

Concrete Nation has spent years perfecting packaging to ensure products arrive safely. Standard above bench basins are packaged using a high tech spray foam which moulds around the basin and provides complete protection. Larger, heavier products are wrapped in a protective layer of packaging and placed in a palletized crate to ensure easy handling for transport.

WHAT ARE THE LEAD TIMES?

Lead times vary by product and can change depending on the demand for each style. It is best to refer to our website for current lead times on each product.

HOW DO YOU CARE FOR YOUR CN PRODUCTS?

All CN products should be cleaned using a mild non-abrasive cleanser. Any multi-purpose cleanser is great. Please refrain from using scour pads on the concrete, as it can scratch your basin and breakdown the sealer.

Avoid exposure to products with high levels of PH such as bleach and nail polish remover as they can strip the sealer and will expose the concrete to staining.

For further FAQ's or if you have a question that hasn't been answered, please head to our website.
