

Ground  Grabba

ALL TERRAIN

GROUND ANCHORS

REUSABLE LONG LASTING

PROUDLY MADE IN THE USA 

As a young man growing up on the beaches of Sydney, I spent most of my formative years trekking and camping across vast areas of Australia — from North Queensland, across the Simpson Desert, to Lake Eyre and all points in between. Susan (Susu), my partner grew up in her beautiful homeland of New Zealand, spending an adventurous childhood camping throughout the region in her family’s Camp-O-Matic camper trailer.

In 2010 we settled on the beautiful coast of Kingscliff, in Northern New South Wales. We began with a simple concept — two lifelong campers creating a collection of unique outdoor gear and accessories to help our fellow campers and outdoor-loving friends get the very most out of every experience. From those sincere beginnings, GroundGrabba was born. We’re so excited to be able to share our efforts with you and help you gain time back to enjoy the moments you set out to do. GroundGrabba helps customers get the most out of every experience by improving the security and protection of their tents, canopies, and shelters, while reducing the time and energy required to set them up.

David & Susu

GROUNDGRABBA LITE
THE ULTIMATE BEACH SAND ANCHOR

SHOP

Made for loose, soft ground and sand, the GroundGrabba Lite has a built-in hook, meaning there’re less parts to go missing in the sand. Also, with a built in 3/4" | 19 mm hex head, they have been made to screw into the earth using your cordless drill or you can hand wind them in with or without a wrench.
