11 September 2019

Dear London Lash Pro

On behalf of everyone here at Crohn's and Colitis UK, I would like to extend my deepest gratitude to you all for your charitable donation of £2,130.50. To raise an incredible amount such as that, over a month, is a testament to the wonderful work and generosity of both your employees and customers. Your support is vital in helping us continually support and strive to achieve a better quality of life for the 300,000 people living with Crohn's and colitis in the UK.

We have many more exciting plans for the remainder of 2019 and your donation will ensure these become a reality for everyone affected by these conditions. With your help we will:

- Train new Crohn's & Colitis UK branded nurses – helping everyone with Crohn's and Colitis have access to a specialist nurse.
- Pilot new models of care and influencing the NHS roll out of the successful models. We know that there are new and better ways for the NHS to treat people, this will help us find them.
- Make sure people have the right information and self-management tools, in the format that's right for them by producing better digital multimedia and accessible information.

From reassurance right now, to hope for the future, we're here for everyone living with Crohn's and Colitis. Thank you again for your support. Together we can make a real difference to these people's lives.

Yours sincerely,

Joe Dobbs
