THANK YOU FOR CHOOSING LANDRY & ARCARI RUGS AND CARPETING TO PARTNER WITH YOU ON YOUR STAIR PROJECT!

Outlined below are some basics necessary to providing you with a final quote and time-frame. Simply complete this form to ensure that all the right information is gathered for our professional, 100% in-house Installation Team.

**STEP ONE - TAKE MEASUREMENTS**

Measure in order to determine the desired width of the stair runner and the desired amount of wood you would like to be shown on the sides of the runner. Note the measurements below in inches. For examples of installation types, see the back of this page.

WIDTH OF RUNNER OR (IF WALL TO WALL), WIDTH OF STEP: _____________

AMOUNT OF WOOD SHOWN ON SIDES: _____________

**STEP TWO - DECIDE INSTALLATION TYPE**

Determine the desired style of installation. For examples of installation types, see the back of this page.

- [ ] WALL TO WALL
- [ ] RUNNER
- [ ] WALL TO SPINDLE
- [ ] CALIFORNIA STYLE
- [ ] WATERFALL STYLE

**STEP THREE - PHOTOGRAPH STAIRWAY**

Photograph your stairway from the vantage points noted below. This can be done with any phone or tablet.

- [ ] BOTTOM LOOKING UP
- [ ] TOP LOOKING DOWN
- [ ] TURNS AND LANDINGS
- [ ] ANY UNIQUE FEATURES
- [ ] CLOSE UP (2-3 STAIRS)

**STEP FOUR - CHOOSE EDGING TYPE AND COLOR**

After choosing a final product, determine the edging type, color, and any features you would like to include.

**EDGING TYPE**

- [ ] NARROW BINDING (1/4 INCH)
- [ ] WIDE BINDING (UP TO 3 INCHES)
- [ ] SERGING

**EDGING COLOR:** ___________________________

**ADDITIONS**

- [ ] STAIR RODS
- [ ] BINDING EMBELLISHMENTS

**FINAL STEP - EMAIL**

You’re almost done! Simply send a photograph of this form along with photos of your stairs to measures@landryandarcari.com and a quote will be created right away!
INSTALLATION TYPES
Outlined below are the various installation types for your considerations. Please don't hesitate to contact your Sales Consultant with any questions or to talk about the right applications for your project!

RUNNER
The carpeting is installed in the middle of the stairs, showing wood on either side, and is bound on the edges.

WALL TO WALL
The carpeting is installed covering the entirety of the stair, leaving no wood showing on either side.

WALL TO SPINDLE
The carpeting is installed against the walled side of the stairs, and leaves wood showing on the spindle side of the stairs. Binding is applied to the spindle side of the carpet.

CALIFORNIA STYLE
Sometimes called New York Style or Hollywood Style, the carpeting wraps underneath the nose of the step.

WATERFALL STYLE
The carpeting flows over the the nose of the step.
