SINOPEC Multipurpose Red Lithium Grease NLGI 2 Material Safety Data Sheet

Not classified as hazardous

1. PRODUCT IDENTIFICATION

.

Product Name	SINOPEC Multipurpose Red Lithium Grease NLGI 2
	Suitable for lubricating the wheel bearing, chassis, electric motor and water pump for
Recommended Use	medium load commercial vehicles.
Manufacturer	Sinopec Lubricant Company
of the ready in the second state of the	800-810-9886

2. COMPOSITION

Chemical Name	CAS Registry No.	Concentration %	
Thickner	Proprietary Mixture	6-15%	
Additive	Proprietary Mixture	<8%	
Base Oil	Proprietary Mixture	75-95%	
3. HAZARDS INFORMATION			
Hazard Classification	Not classified as hazardous		
	The International Agency for Research on Cancer (IARC) has determined there is		
	sufficient evidence for carcinogenicity in experimental animals of used oil.		
	Under normal conditions of intended use, this product does not pose a risk to health.		
	Excessive exposure my result in eye, skin or repiratory irritation.		
4. FIRST AID MEASURES			
Eye	Flush with water for 15 minutes. If irritation occurs, get medical attention.		
	Flush skin with water, and then wash with soap and water. If irritation or pain		
	persists or there is visible tissue damage, get	medical attention. If material is injected	
Skin	under the skin, seek medical attention immediately.		
Inhalation	Remove victim to fresh air and provide oxygen. Get medical attention		
Ingestion	Do not induce vomiting unless recommended by physician. Get medical attention.		
Note to Physician	Cure according to symptoms.		
5. FIRE FIGHTING MEASURE	5		
NFPA Classification	Class IIIA		
Extinguishing Media	Use carbon dioxide, dry chemical or foam.		
	Under fire conditions, this product my emit t	oxic and/or irritating fumes including	
Hazards from Combustion	nitrogen oxides, carbon oxides, sulfur oxides and inorganic and organic compound.		
Product Specific Hazards	Combustible liquid. This product will readily	burn under fire conditions.	
	Firefighters must use full bunker gear includi	ng NIOSH-approved positive pressure	
Protection of Firefighter	self-contained breathing apparatus to prevent exposure to vapor or fumes.		
Extinguishing Method	Spray		
	Fumes, smoke, carbon monoxide, sulfur oxid	les, aldehydes and other decomposition	
Hazardous Combustion Products	products, in the case of incomplete combust	ion.	

Forbidden Media Water 6. ACCIDENTAL RELEASE MEASURES

		1	our own safety before attempting	any cleanup. Wear appropriate
Protective Mea	22. C.	protective equipment when cleaning up spills.		
Spill Manageme	ent	Comply with a	all local laws and regulations	
		FOR LARGE SPILLS:	Contain spill and remove with storage/salvage vessels. In ou professional cleanup advice.	
		FOR SMALL SPILLS:		bent such as clay, sand or other n-leaking container and real tightly for
7. HANDLING	AND STORAG	jΕ		
Storage		ventilation. K	eep away from open flame, spark	Store in cool, dry place with adequate s and high temperature. , grind or expose such containers to
				esidues that could ignite under force
Empty Containe	er Warning	and severe co		
	CONTROLS/P			
		Provide adequ	uate ventilation to control airborn	e concentrations below the exposure
Exposure Contro	ols	guidelines/limits.		
		If engineering controls do not maintain airborne concentrations to a level which is		
		1000년 전 2018년 100년 13월 1		proved organic vapor respirator with a
		dust/mist pre	filter, in accordance with OSHA re	quirements (29 CFR 1910.134) must
Respiratory Pro	tection	be worn.		NATES CONTRACTOR CONTRACTOR CONTRACTOR CONTRACTORS
Eye Protection		Chemical googles or safety glasses with side shields.		elds.
Hand Protection	n	Use protective gloves that are chemically resistant to material.		ant to material.
Personal Protec	tion	Use protective	protective clothing and shoes which are chemically resistant to this material.	
		Wash hands a	nd exposed areas with soap and v	water before eating, drinking, smoking,
Note to Sanitati	ion	using the facil	lities or after contact with product	ſ.
Occupational Ex	xposure Guidelin	es		
		Substance	Acceptable Workplace Exposu	ure Levels
		Oil Mist,	ACGIH (United States)	TWA: 5mg/m ³ 8 hour(s)
		Mineral		STEEL: 10mg/m ³ 15 minute(s)
			OSHA (United States)	TWA: 5mg/m ³ 8 hour(s)
9. PHYSICAL	AND CHEMICA	L PROPERTIE	S	
Physical State	Smooth buttery	y liquid	Melting Point	No data available
Color	Red	11 - 112	Boiling Point	No data available
Odor	No peculiar sme	ell	Solubility in Water	Negligible
~~~~			Vapor Pressure	No data available
			Flash Point	No data available
			Kinematic Viscosity	9-12 cSt @ 100°C
			Cone Penetration	278 ~ 288
<b>10. STABILITY</b>	AND REACTIN	VITY		

**Chemical Stability** 

Stable under normal conditions of storage and handling

Conditions to Avoid	Extreme heat and high energy sources of ignition
Materials Incompatibility	Strong oxidizing agents and strong acids
Hazardous Decomposition	Under fire conditions this product may emit toxic and/or irritating fumes including
Products	nitrogen oxides, carbon oxides, sulfur oxides and inorganic organic compounds.
11 TOVICOLOCICAL INFO	RMATION .

#### 11. TOXICOLOGICAL INFORMATION

	ORAL TOXICITY (LD50)	Acute: >5000mg/kgBW Rats. Based on testing of similar products and/or components.
Acute Toxicity		
	INHALATION TOXICITY (LD50)	Acute: >10000mg/m3 Rats. Based on testing of similar products and/or components.

### 12. ECOLOGICAL INFORMATION

Ecological Information	Through long time infiltration, it may product ecological toxicity.
Mobility	Floats on water. When released into the environment, absorption to sediment and soil will be the predominant behavior.
Persistence and Degradability	This product is expected to be inherently biodegradable.
	Bioaccumulation is unlikely due to the very low water solubility of product, therefore bioavailability to aquatic organisms is minimal, although oil spills can mother and suffocate aquatic life by preventing oxygen into the water. Oil contamination can foul and smother birds and marine animals. Do not discharge this material into
<b>Bio accumulative Potential</b>	waterways, drains and sewer.
12 DISDOCAL CONCIDEDAT	TIONS

#### 13. DISPOSAL CONSIDERATIONS

	Disposal, transportation, storage and/or treatment of spilled or waste material must be done in accordance RCRA regulations [40CFR 260 - 40CFR 271]. Check with state	
Disposal Considerations	and/or local laws for further restrictions. Do not puncture, cut or weld empty containers.	
14. TRANSPORT INFORMATION		
Land (DOT)	Not regulated as a hazardous material by the Department of Transportation.	
Land (TDG)	Not regulated as a hazardous material by the Department of Dangerous Goods.	
	Not regulated as a hazardous material by the International Maritime Dangerous	
Sea (IMDG)	Goods Code.	
	Not regulated as a hazardous material by the International Air Transportation	
Air (IATA)	Association.	
15. REGULATORY INFOR	MATION	

**OSHA Hazard** 

Not considered as hazardous in accordance to OSHA 29 CFR 1910.1200.

The above information is based on the data of which we are aware and is believed to be correct as of the date hereof. Since this information may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose.
