## What We Loved This Week

### What We Love from Around the Web...

From suzani textiles to bone-inlay furnishings, De-Cor's haul straight from India includes some wildly gorgeous finds.

### What We've Been Up To...

Bone-inlay furnishings, silk *kantha* pillows, carved marble accents... we're thrilled to have a treasure trove of [vintage finds from De-Cor](#) back on our site. And you can find these pieces only here: Showroom founder Deepali Pareek sourced everything from the Indian subcontinent just for us at One Kings Lane.

If eclectic opulence isn't your cup of tea, fret not. We're also plenty inspired by a lighter aesthetic, such as [rustic European romance](#) and [linen rugs](#) straight from Belgium. Or a [bedroom](#) that mimics the fresh feeling of spring. Or a [dining room](#) that brings in the subtle ease of the sea. And if you're a fan of both lightened-up and eclectic design? This clean [earthy-meets-modern mix](#) might be just right.
