Angel Tuners

Angel Tuners are a unique set of high pitched tuning forks. These exquisite forks open our soul/spirit to the Angelic Heavenly Kingdom. They are based on the 9th octave of the overtone series. In the overtone series, a fundamental tone creates a second tone and the second tone creates a third tone, etc. They ascend in pitch and simulate the archetypal energies of Jacob's Ladder, the Pillar of Light and the Stairway to Heaven.

Each fork can be used individually or in groups to enhance meditations and prayers. They can also be used to amplify the energies of crystals by toning the fork and placing the stem end of the fork on the crystal. You can use them individually or by gently tapping two together. Create an Angelic concert by holding several between your fingers and tapping them simultaneously.

Benefits:

- * Enhanced connection to Universal energy
- * Spiritual insights and experiences
- * Manifestation of inspiration and a meditative state
- * Connect with higher powers and creative expression
- * Amplifies energy of crystals

4096 Hz (Jacob's Ladder)

This Fork is also known as the Crystal Tuner as it is used on crystals themselves to amplify the energies of the crystals and to tone the crystal as well. This specially designed tuner creates a wavelength powerful enough to penetrate through the skull, and into the neural epicenters in the brain. By vibrating your cranial bones, the Angel Tuner opens the gateway for spiritual insights and experiences. This tuner enhances your connection to universal energy for manifesting inspiration and a meditative state, as well as connections with higher powers, visions, and creative expression.

In Judaism, there is an interpretation of the ladder that angels first "ascended" and then "descended." The Midrash explains that Jacob as a holy man, was always accompanied by angels. When he reached the border of the land of Canaan (future Israel), the angels who were assigned to the Holy Land went back up to Heaven and the angels assigned to other lands came down to meet Jacob. When Jacob returned to Canaan he was greeted by the angels who were assigned to the Holy Land.

4160 Hz (Pillar of Light)

This Pillar is also known as the Pillar of Fire which provided the light at night to guide the Israelites.

The LORD was going before them in a pillar of cloud by day to lead them

on the way, and in a pillar of fire by night to give them light, that they might travel by day and by night. He did not take away the pillar of cloud by day, nor the pillar of fire by night, from before the people. - Exodus 13:21-22

This pillar is traditionally paired with the manifestation of the divine presence of God and his Angelic realm .

In energy medicine, the Pillar of Light is a meditation practice of rooting the mind in the Earth and connecting with God through our Physical tissues. Most importantly it is used for grounding, protection and creating a sacred healing space both for the ones personal spiritual practice and/or ones healing practice with others.

4225 Hz (Stairway to Heaven)

While many of us remember the famous song performed by Led Zeppelin released late in 1971, this is not that stairway. This Stairway also represents the archetypal images of Jacob's Ladder. The higher frequency represents a higher reach into the heavenlies. Alexander Scriaben, a Russian composer, believed ninth octave overtones would bring forth a new era and unite Heaven and Earth. His last composition "Mysterium" was to be played in India using bells hung from clouds sounding these overtones.

Instructions:

All three Angel Tuners can be used in many creative ways. Tap any two together and meditate upon the sound or hold several Angel Tuners between your fingers and tap them simultaneously to create an Angelic concert. The sound will be delicate, and high in pitch.

The Angel Tuners can also be used with crystals to create group meditations. With one person laying on a bodywork table or floor as many as five people can surround him or her with their Angel Tuners and crystals.

After meditation or massage, gently tap the Angel Tuners. You do not have to hold them directly in your ears. Tap them gently three inches to several feet off the cranium and move them around. They can be held in specific areas of sutural restrictions, internal bone rotation, or energy conflict. The pulsating beats between the tuning forks will be apparent to the listener's ears.
