EDC PRODUCT GUIDE

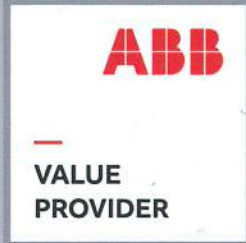

Electrical parts delivered when you need them

Technical assistance from industry experts
Fast, friendly, competitive quotes
Spares supplied off-the-shelf on a same or next day delivery

ABB Drives, Electric Motors, Softstarts, Spares, Cooper Bussmann Motor Protection & Control, Circuit Protection, Pilot & Signal Devices, Electronic & Control Relays, BS88/DIN fuses, Industrial High Speed Semi-Conductor, North American Style, Feeder Pillar, British Standard European DIN Type fuses, Fuseholders, Fuse Disconnects, Texa Anti-Condensation Heaters, Humidistats, Extraction Fans & Filters, Timers, Panel Lights, Air Compressors, Blowers, Ancillary Equipment

YOUR ONE-STOP SHOP

- When you need a fuse urgently
- When your plant is down
- When you don't know the fuse to choose
- When you need an equivalent

We stock a huge range of fuses, both industrial and domestic:

Feeder Pillar / high-speed semi conductor / high & low voltage (European style, British Standard, European DIN type) / expulsion fuse links / general purpose fuses / motor (aM and gM) / transformer / back-up protection fuses / North American style, as well as a range of specialist Cooper Bussmann fuses.

FANS AND FILTERS

TEXA is an industry leader in the manufacture of cooling products & thermal management for the electrical control panel and electronics industry. With a reputation for reliability and quality its products are built to exacting, environmentally friendly standards. Their fans and filters are both durable & cost-effective. EDC stocks a full range of Texa fans and filters which can be shipped for next-day delivery. Easy to install and interchangeable with other fan & filter manufacturers' products, the Texa range can ensure your enclosure is rated up to IP54 protection. Heaters & panel lights are also available.

ABB Control Gear

Switchgear range includes:

- Contactors
- Softstarts
- Overloads
- Relays
- Shafts,

Stainless steel (food safe) motors,
SynRM packages.

DRIVES:

Single & 3 phase
IP21 & IP55 protection
Hire drives available
VSDs from 0.18kw - 500kW

WHY CHOOSE EDC AS YOUR SUPPLIER?

In business for almost 3 decades, we have a top technical team with a wealth of industry knowledge - which makes your life easier if you're looking for a replacement (or substitute) part. Let us do the hard work sourcing items so you don't have to. Our distributorships are with ABB, Cooper Bussmann, SCR and Enclosure Climate Control; industry leaders in their respective products. And our pricing is second to none.

"You guys are excellent!" - electrical engineer in a utilities company.
