

1/2 DAY VSD TRAINING COURSES

ELECTRONIC DRIVES & CONTROLS

Example course schedule:

Half-day morning course: expected duration 9AM am until 1PM in EDC's dedicated & spacious training suite in Erskine—or at your premises.

At EDC we like to settle our trainees with a morning breakfast roll (egg/ bacon/ lorne sausage/ potato scone/black pudding) and provide tea, coffee, orange juice & biscuits before training commences.

Course Materials: The half day fee covers all course materials required, as well as meals and a certificate of attendance.

Training : - VSD theory, drive start-up, parameter settings, basic fault finding , practical hands on learning (via EDC demo cases)

Question & answer session: Where your engineers can ask industry & application specific questions and find out best practice from our fully qualified & ABB trained engineers.
