CABANA  
POCKET FRAME

Job hardware/Materials	Ordered or in stock
Glass	
Screen mesh	
Hardware	
New Tooling	

Architectural Millwork shop drawings are intended to increase accuracy and flow of information between Architectural Millwork, the general contractor and the architect.

Before Architectural Millwork can engineer and manufacture the job, we request that:

- the architect sign off on the concept and design
- the contractor sign off on the dimensions

Scheduling of jobs begins after receiving a set of drawings with approvals from both the architect and the general contractor. Any changes arising after approval will be billed at a rate of \$200 per change.

Thank you for your cooperation. Your communication helps Architectural Millwork to supply a high quality product in a timely manner.
