## Sirona™ Simply System

Simply Waterline Control  
#82106 | 32 fl. oz.

Simply Oxidizer  
#82137 | 32 oz.

Simply Oxidizer  
#82316 | 16 fl. oz.

Simply Test Strips  
#82120 | 25 Count

### Start-up

1. Once you've cleaned the surface of the spa, fill it with water, run the pump/filter, and add **Sirona™ Simply Waterline Control** according to the system dosage chart on the next page to prevent waterline build-up. Ensure that you shake the bottle before adding and follow label instructions to add the correct amount to the water.
2. Add **Sirona™ Simply Oxidizer** non-chlorine shock oxidizer according to the system dosage chart on the next page. **Sirona™ Simply Oxidizer** is specially designed to keep spa water sparkling clear.
3. Once **Sirona™ Simply Oxidizer** is added, circulate the water for at least 15 minutes on high speed. Next add the **Sirona™ Simply Sanitizer** according to the system dosage chart on the next page and circulate the water again for 15 minutes.
4. Finally, test the water with **Sirona™ Simply Test Strips** to ensure you have achieved the proper water balance. Your pH should read between 7.2 – 7.8. The alkalinity should be in the range of 80 – 120 ppm and the calcium hardness should range between 150 – 400 ppm. Your **Sirona™ Simply Sanitizer** level should be between 30 – 50 ppm.

| 450                     | 2 1/4 oz             | 4 1/2 oz   | 9 oz   | 1 1/2 oz                                    | 2 3/4 oz                                   |
| 500                     | 2 1/2 oz             | 5 oz   | 10 oz  | 1 1/2 oz                                    | 3 oz                                       |

**Always read and follow label instructions.** All measurements are in liquid ounces. Rinse scoop or measuring cup thoroughly after each use. \*If using an ozonator, test **Sirona™ Simply Sanitizer** level every four days and adjust as necessary.

\*\*Use high dosage rate if spa is used three or more times per week.
