

# Machine Applique Basics

## Supply List

**Instructor:** Beth Dague

**Dates:** Saturday, March 9, 1pm – 3pm

**Project description:** Spend some time learning the “ins and outs” of machine applique to enhance your quilts, table runners and wall hangings.

**Fabric requirements:**

We will supply a kit to practice the machine applique technique. You will need no additional fabric.

**Sewing supplies:**

1. Must have a sewing machine with a satin stitch.
2. Open toe applique for the machine (must have)
3. Paper shears and fabric shears.

**Preparation prior to class:**

It's important that you know how your sewing machine adjusts to a satin stitch before you come to class. The instructor may not know how to accomplish that on your machine model.

Please, please, please know your machine before you come to class. If you have a machine book, bring it. No other preparation is necessary.
