

MEGA FX

H6 HAZER

DESCRIPTION:

Enhance the appearance of beams and lighting fixtures or create a special effect with the H6 Hazer. This new IP rated and wireless hazer creates haze with long hang times and even particle dispersion. At full intensity, the H6 Hazer can quickly fill up a space with haze at 8,000 cubic feet per minute and is warmed up and ready for use in just 2 minutes. The H6 Hazer holds 1/2 gallon of Mega Nectar, our signature water-based haze fluid designed to not leave behind residue on surrounding surfaces.
