What our Customers Say

"We love having the Angels' Share Glass products in our shop. They've proved very popular with our visitors, especially the range of stirrers and droppers, as they are a great gift and easy for customers to take in their carry-on luggage. Experts love the new items to enhance their tasting experience and novices are intrigued. After learning about the angels' share during their tour, many visitors are also drawn towards the whisky filled angels once their tour is over."
