An air cooler works on the principle of evaporative cooling wherein evaporation of water is used to cool the air.

Types of Air Cooler

- **Desert Coolers:** These coolers are characterized by their large tank capacity, big blower or fan, and powerful motor. These coolers are capable of cooling down large spaces with their superior air throw and delivery
- **Personal Coolers:** Compact and highly portable, Personal air coolers are more of a personalized cooling solution meant for use in small spaces or in areas that do not need open cooling. In comparison to desert coolers, personal air coolers consume far less energy and operate more quietly.
- **Tower Coolers:** Designed to fit in the smallest of spaces, Tower air coolers are slim, sleek and elegant. These coolers throw air at a higher point as compared to other types of coolers, so their foremost benefit lies in their height
- **Window Coolers:** As the name suggests, Window air coolers are meant to be fitted in the windows and thus they save you floor space which you can utilise for something else. These coolers are the best option for circulating fresh air inside the room as they pull the air directly from outside.

Desert Coolers

Presenting
AIR PRO 60
Desert Air Cooler

NEW
LAUNCH

BREEZE THROUGH SUMMERS
with powerful cooling and advanced design

Air Pro 60 Key features

MAHARAJA
—WHITELINE—

Contemporary Design

The ultramodern aesthetics compliment your style.

Pump Dry Run Protection

Protect the submersible pump from getting damaged while the tank is empty

Tank Auto-fill

Auto-fill automatically cuts the water supply when the tank gets full. Just attach the hose directly to the Air Cooler and never worry about it getting empty.

High Air Delivery

High air delivery of *5300* CMH with strong Air Throw of *13.7* meters/*45* ft

Air Pro 60 Key features

MAHARAJA

Honeycomb Cooling Pads

These efficient and low maintenance cooling pads are deformation & erosion resistant which ensures longer life.

Ice Chamber

Dedicated ice chamber for faster cooling

4-Way Air Deflection

To ensure uniform cooling, by throwing air in all four directions.

Inverter Compatible

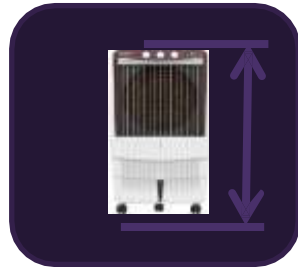

Remain stress-free during power cuts. Enjoy the stable cooling performance

Desert Cooler- Maxberg 85L

NEW LAUNCH

Bigger Height
114.8cm

5 Blade 16 inch

Compatible

Hybridcool Air Cooler Series

Manual Model – 55L and 65L

Remote Model – 55L and 65L

Hybridcool Range of Desert Air Coolers uses a unique combination of both Woodwool and Honeycomb Pads and make the air coolers highly efficient and durable.

Prowave Super 65

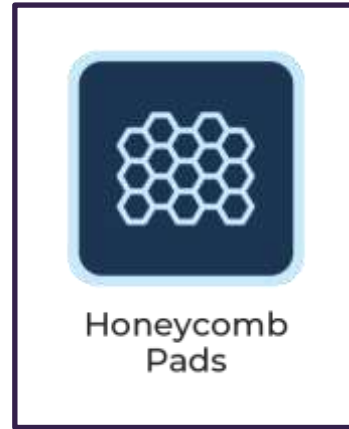

Prowave Super 65 with Remote

- 65L
- Honey-comb Cooling Tech
- **Remote**
- Inv. Compatible
- 5000CMH Air Throw

Prowave Super 65

- 65L
- Honey-comb Cooling Tech
- Inv. Compatible
- 5000CMH Air Throw

Honeycomb Pads

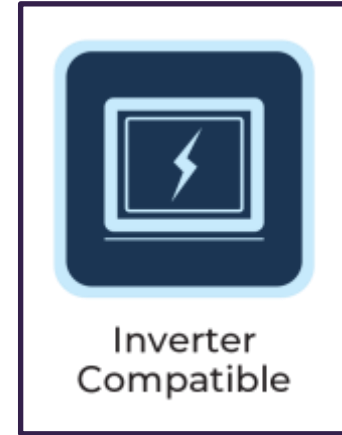

Four Way Air Deflection

Inverter Compatible

Smart design for high cooling efficiency

- 4-way air deflection. Speed 1450 RPM
- Air Throw Distance at 50 ft
- Air Delivery 5000 m³/hr
- Wood wool pads
- **Remote control**
- 65L water tank capacity
- Wheels for mobility
- Rust-proof body
- Unique design

Bravo Hybridcool 65

- 4-way air deflection system
- Three speed blower control
- Air Delivery 5500 m³/hr
- Hybridcool Cooling Tech.
- Inv. Compatible
- 65L water tank capacity
- Rust proof ABS body
- Strong & Sturdy modern look
- Aroma Chamber

Four Way
Air Deflection

Inverter
Compatible

Bravo Prime 65

- 4-way air deflection system
- Three-speed blower control
- Air Throw 50 ft
- Air Delivery 5100 m³/hr
- Wood wool pads
- 65L water tank capacity
- Rust-proof ABS body
- Strong & Sturdy modern look
- Aroma Chamber

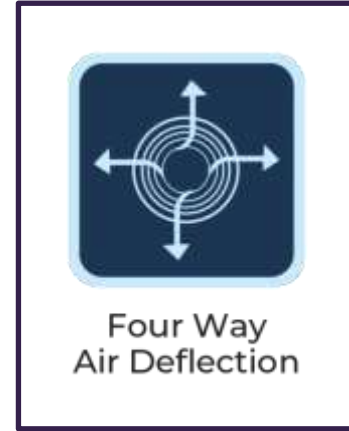

Honeycomb
Pads

Four Way
Air Deflection

Inverter
Compatible

- Four way air deflection system
- Three speed blower control
- Speed 1350 RPM
- Air Delivery 5000 m³/hr
- Air throw 55 ft
- Wood wool pads
- 65L water tank capacity
- Rust-proof ABS body
- Strong & Sturdy modern look
- Water level indicator & overflow pipe
- Aroma Chamber

Super Grand 70 Plus

- 70L
- Honeycomb Cooling Tech
- Inv. Compatible
- 6000CMH Air Throw
- Large Fan Size 45.72cm

Super Grand 70

- 70L
- Woodwool Cooling Tech
- Inv. Compatible
- 5000CMH Air Throw
- Large Fan Size 45.72cm

Four Way
Air Deflection

Inverter
Compatible

Tower Coolers

Blizzard Deco

- 54/22L
- Honeycomb Cooling Tech
- Inv. Compatible
- 1600CMH Air Throw
- Centrifugal Blower
- Remote

Blizzard Deco 55/25

- 54/22L
- Honeycomb Cooling Tech
- Inv. Compatible
- 1600CMH Air Throw
- Centrifugal Blower

Honeycomb Pads

Four Way Air Deflection

Inverter Compatible

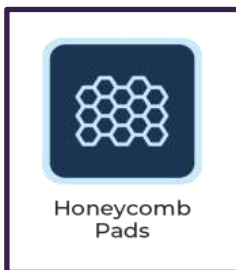

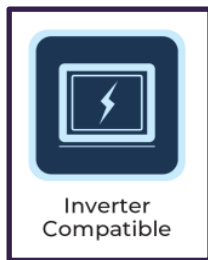

Personal & Window Coolers

Personal & Window Cooler Range

**Frostairst Cooler Series-
Frostairst 45/25**

- 45/22L
- Honeycomb Cooling Tech
- Inv. Compatible
- 1900CMH Air Throw
- Centrifugal Blower

Arrow Dlx

- High Cooling Capacity-Wood wool pads
- 3-speed control
- Blower
- 4-way air deflection.
- Air delivery 2500m³/hr
- Air throw 35ft
- 50 L water tank capacity

THANK YOU!
