Read Contents Carefully For Trouble-Free Operation of Your Safe

Dear Valued Customer:

Congratulations on your purchase of the finest safe from American Security Products, Co.

You've taken an important step in organizing and protecting your most valued possessions. Every AMSEC safe is professionally hand-crafted and designed to provide a lifetime of trouble-free performance.

AMSEC offers the industry's finest warranty backed by a nationwide network of highly skilled authorized dealers, providing prompt, courteous, and professional service. We suggest that you read the Limited Warranty thoroughly, and invite you to contact your authorized AMSEC dealer or AMSEC's Service Department if you have any questions

Please also take the time to read and familiarize yourself with the proper operating procedures of your new safe presented on the following pages.

Again, Congratulations and Thank You for selecting AMSEC!

CAUTION FIRE SAFE CONTENT STORAGE

A fire safe contains insulation material, which may cause humidity to be present when closed extended periods of time. It is recommended that the safe is opened on a regular basis and interior allowed to air out. It is also recommended that documents sensitive to moisture be kept in a sealed container, I.E Ziplock® or Tupperware®.

MAINTENANCE

Standard Textured Finish: Your safe is provided with a durable paint that may be easily cleaned with a mild detergent and a soft cloth. **Do Not** use abrasive scouring pads or any chemical fluids, which may react and damage the finish.

Hi-Gloss Finish: This finish is a two-stage paint, which is the same used in the automotive industry. Use a damp cloth with mild detergent if needed. A good grade of automotive wax is recommended if the finish appear dull. Do Not use abrasive scouring pads or any chemical fluids, which may react and damage the finish.

Door Operating Mechanism: The handle of the safe moves mechanical parts inside the door. After a period of use, if difficulty is experienced in operation, please contact a qualified locksmith for service.

Door Hinges: If the door becomes hard to open or emits noise, the hinges may need lubrication. Please contact a qualified locksmith for service.

Caution: AMSEC assumes no liability for finish damage due to the incorrect use of caustic lubricants.

Mechanical Combination Locks: Mechanical combination locks will perform well for the life of the safe when operated correctly. Occasionally, they may need to be cleaned and adjusted if dialing the combination becomes difficult. When this is experienced, contact a qualified locksmith for service. Attempting to service a combination lock yourself will void the warranty and may result in a malfunction and require your safe to be drilled.

FREIGHT DAMAGE CLAIMS

Freight Damage: All safes are carefully packed for shipment. The manufacturer's liability ceases when the transportation carrier accepts the shipment in good condition. The carrier's liability ceases when you sign for the merchandise. **INSPECT YOUR SHIPMENT BEFORE SIGNING THE DELIVERY RECEIPT.** Although unlikely, if damage occurs you have the option of refusing the shipment or negotiating a settlement with the carrier. To negotiate a settlement, follow these steps:

1. Note the extent of the damage on the freight bill and sign your name.
2. Save all cartons and packaging materials.
3. Call the freight carrier immediately and request a damage inspection claim.
4. Contact your dealer immediately.
5. Claims must be filed within 15 days.
6. Claims must be accompanied by proof of purchase receipt and photographs.
7. In the event of replacement, the safe must be returned to the dealer/factory in the original packaging.

SAFE COMBINATION INSTRUCTIONS

NON-UL LISTED MECHANICAL LOCKS

Each AMSEC safe is professionally hand-crafted with quality materials and is equipped with a precision-quality, high-security combination lock. To become familiar with the lock, operate the lock (as outlined below) several times before closing the door and locking the safe.

To unlock the safe, turn the dial in the direction of the arrow for each number, stopping at the opening index mark located at the top (12 o'clock position) of the dial ring. You must dial the combination precisely without backing up. (See figure A).

STEP 1

Turn dial **RIGHT**, aligning first number with the opening index the fourth time it comes to the index.

STEP 2

Turn dial **LEFT**, aligning second number with the opening index the third time it comes to the index.

STEP 3

Turn dial **RIGHT**, aligning third number with the opening index the second time it comes to the index.

STEP 4

Turn dial **LEFT**, aligning fourth number with the opening index the first time it comes to the index.

What is covered and what is not covered:

This warranty covers all defects in materials or workmanship in this product, but DOES NOT COVER:

- (1) Damage, deterioration or malfunction resulting from:
 - a. Accident, negligence, misuse, abuse, improper installation, failure to perform normal maintenance or operation to follow instructions labeled on or provided in the safe.
 - b. Any damage occurred from shipment. (Claims must be presented to the carrier)
 - c. Repair or attempted repair by anyone other than a pre-authorized AMSEC service dealer.
- (2) Any unit which has been altered or on which the serial number has been defaced, modified or removed.
- (3) Normal wear, battery replacement, any periodic maintenance or where combination lock has been changed without factory authorization.

Who may enforce the warranty:

This warranty is only enforceable by the original purchaser.

What we will pay for and what you must pay for:

AMSEC will repair or replace units covered by this warranty, without charge to the consumer for labor and materials. YOU ARE RESPONSIBLE FOR ANY INSTALLATION OR REMOVAL CHARGES AND FOR ANY SHIPPING CHARGES. State sales tax does not apply to warranty service work and will not be honored. If safe components must be shipped for warranty service, AMSEC will pay the shipping charges to any destination within the USA if the repairs are covered by the warranty. Defective parts must be returned (not repaired unless instructed) to AMSEC. If parts are not returned, the warranty invoice will be denied.

How you can get warranty service:

- (1) If your AMSEC safe requires service, contact your local authorized AMSEC dealer and the dealer will advise you of the procedures to be followed. If this is not practical, contact the AMSEC Service Department at the address on front cover or call 951-685-9680, ex. #1036.
- (2) All warranty service must have prior authorization, accompanied by proof of purchase as evidence of warranty coverage. A warranty authorization number must be obtained from AMSEC before any service work is performed. The serial number, description of product and description of problem must be supplied to AMSEC to determine warranty status before an authorization number will be assigned. Issuance of the authorization number recognizes only the existence of the problem and does not constitute an admission of liability by AMSEC. Only approved service representatives will be authorized to perform warranty service. Any service performed prior to issuance of a warranty authorization number will be subject to denial.

Limitation of Implied Warranties:

Any implied warranties, including warranties of merchantability and fitness for a particular purpose, are limited in duration to the length of this warranty.

Exclusions of Damages:

AMSEC's liability for any defective products is limited to repair or replacement of the product, at our option. AMSEC shall not be liable for damages based upon inconvenience, loss of use, damage or loss of contents, or any other damages whether incidental, consequential or otherwise.
