

FÉST

2024
Collection

Mani.FEST

In 2013 Femke Furnée founded FEST, an interior design brand that makes decorating much more fun and easy thanks to its excellent services and accessible design collection. Whilst decorating her first apartment, the 26-year-old art history student found

there was a serious lack of well-designed furniture for an affordable price. Her entrepreneurial nature and love for aesthetics led her to the start of an incredible journey. Making high-end design and great service accessible: a true Dutch success story.

SUSTAINABILITY

We believe beautiful things shouldn't cost the earth. But fact is: they often do. That's why we're eager to continuously improve ourselves. For a better world.

THIS IS HOW:

LOCAL HEROES

All our furniture is made in Europe, the majority even in the Netherlands. Not only does this save loads on transport emissions, it also allows us to stay in close contact with our factories, ensure a safe working environment and guarantee the high quality of your new furniture.

THOUGHT THROUGH MATERIALS

Raw, responsible and durable. A better world all starts with the base. That's why we focus on responsible use of raw materials. Whether that's through recycling, durability, certificates or new technologies.

MADE TO LAST

Durability is what we aim for. In the sense of high quality and timeless design. We want you to enjoy your furniture and home décor. Not just for this season, but for years to come. That's why we work with designers, craftsmen and specialised manufacturers.

FURNITURE VIEWER

Sometimes it's quite difficult to imagine what a piece of furniture will look like after you've designed it the way you would like it.

With our Furniture viewer you can view all of our products in 360 degrees. In several configurations and in all available fabrics. Now that's handy, isn't it?
