RECIP-XL-P

Premium Reciprocating Air Compressor Lubricant

RECIP-XL-P synthetic blend air compressor lubricant is designed for reciprocating air compressors. This premium lubricant gives outstanding service – even in moderately severe operating conditions. With enhanced oxidative and thermal stability, RECIP-XL-P is designed to provide 4000-6000 hours of service.

ATTRIBUTES:

- 4000-6000 hours of oil life at 212°F discharge temperature
- Enhanced thermal and oxidative stability
- Protects against wear, rust, and corrosion
- Resists water contamination
- High flash point 510°F
- Non-toxic and Non-hazardous

LUBRICANT PROPERTIES:

▪ RECIP-XL-P Grade	100
▪ Viscosity cSt @ 104°F	100
▪ Viscosity cSt @ 212°F	11.8
▪ Flash Point °F/°C	510/265
▪ Copper Corrosion, 24 hr	1a
▪ Demulsibility, 130°F, 30min	40/40/0
▪ Rust Test: Distilled Water	Pass
▪ Rust Test: Salt Water	Pass
▪ Foam Sequence I, II, III	0/0/0
