## VAC-XL-P

### Premium Vacuum Lubricant

---

VAC-XL-P is designed to provide superior performance and a long fluid life. It offers a very low vapor pressure; excellent thermal, chemical and shear stability; and superior protection against wear, rust and corrosion. VAC-XL-P's advanced-technology additive system protects vacuum pumps from varnish, carbon and sludge deposits. It exceeds the requirements of DIN 51506 VD-L.

#### **ATTRIBUTES:**

- Very low vapor pressure
- Excellent thermal and chemical stability
- Good oxidative stability
- Low volatility
- High flash point 399°F
- Non-toxic and Non-hazardous

#### **LUBRICANT PROPERTIES:**

▪ VAC-XL-P Grade	22
▪ Viscosity cSt @ 104°F	21.0
▪ Viscosity cSt @ 212°F	4.04
▪ Flash Point °F/°C	399/204
▪ Copper Corrosion, 24 hr	1a
▪ Demulsibility, 130°F, 30min	40/40/0
