VANE-XL-P

Premium Rotary Vane Air Compressor Lubricant

VANE-XL-P is made from premium synthetic diester base stocks combined with an advanced-technology additive system. VANE-XL-P is proven to perform in rotary vane air compressors with excellent carbon and varnish control capabilities. This premium lubricant also gives outstanding service — even in the most severe operating conditions.

ATTRIBUTES:

- Excellent carbon and varnish control
- Very low vapor pressure
- Excellent thermal and chemical stability
- Good oxidative stability
- High flash point 490°F
- Non-toxic and Non-hazardous

LUBRICANT PROPERTIES:

▪ VANE-XL-P Grade	100
▪ Viscosity cSt @ 104°F	105
▪ Viscosity cSt @ 212°F	12.6
▪ Flash Point °F/°C	490/254
▪ Copper Corrosion, 24 hr	1a
▪ Demulsibility, 130°F, 30min	40/40/0
▪ Rust Test: Distilled Water	Pass
▪ Rust Test: Salt Water	Pass
