

HL POS Centre Product Catalogue

UK's leading POS manufacturer
for all your merchandising,
communication & display solutions.

Welcome to our new Product Catalogue

Welcome to the HL POS Centre product catalogue where you will find a comprehensive range of products for merchandising and display purposes.

We have expanded our range of merchandising solutions and now stock solutions for bulk merchandising and the fresh category.

Our bulk bins are ideal for zero-waste shops, deli's and farm shops as they help reduce plastic in retail environments and customers can dispense the amount of product they need.

For the fresh category our Sigma shelving helps reduce food waste and creates a beautiful display. The shelving can be retrofitted into existing chillers, allowing retailers to display the fresh category plastic free.

Contact our Customer Service team on **0845 070 4211** to discuss your requirements or visit our website.

The No.1 source for all your display accessories

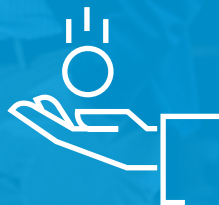

Next day delivery

As one of the UK's leading suppliers of retail display equipment, we hold large stocks and have a vast range of products available for immediate delivery.

British manufactured

Many of our products are manufactured at our Essex based site or sourced from British manufacturers. We pride ourselves on selling the best possible products to meet the demands our customers expect.

Competitive pricing

We regularly check our prices to ensure that we are as competitive as possible so you can be sure that you're getting the best possible prices, direct from the manufacturer.

Guaranteed quality

We have the utmost confidence in the quality of our products. For small value items we are happy to offer free product samples, enabling you to test our solutions before you place your order.

7mm	624392

Rubber End Cap for Flag Poles

To be used with 7mm flag pole (625095) and angled base (624392).

Material: Rubber

Pack size: 10

Size	Code
7mm	624403

Facer™

Pull-feeding system

Front-faced in one pull

A smart and easy solution to organise shelves throughout trading hours.

Key benefits:

- Reduces facing time.
- Lowers risk of over-stocking and broken bottles.
- Keeps bottles aligned.

Save space, reduce labour and improve category performance

Facer™ frames reduce the risk of overfilling and damaging bottles while ensuring well-merchandised products and can be used across multiple categories.

Flexible and effective

Each lane of bottles or cans is maintained in a width-adjustable steel frame hidden behind the front riser.

The frames are placed directly on the shelf and work whichever way they are installed.

To front-face, lift the frame up from behind the riser, pull the frame forward, bringing the products to the front of the shelf and slide the frame back into place behind the front riser.

Facer™ Pull Feed Shelf System

Ideal for beers, wines & spirits category to ensure product and price align.

Material: Steel

Pack size: 1

Size	Code
W47-70, L455 (white)	750287
W68-110, L455 (white)	719223

Facer™ Shelf Front Riser

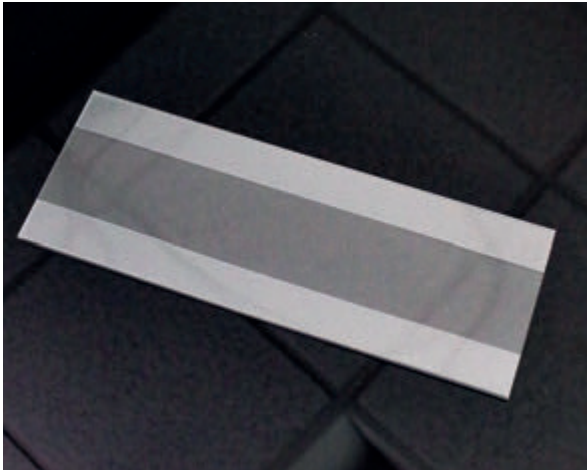

Ensures the Facer™ pull feed frame is kept in place and provides a neat shelf edge. The riser can also be used for displaying prices or printed matter.

Material: PVC

Pack size: 1

Size	Code
1330mm (grey)	459093
1330mm (white)	455840

Hook-On Static Shelfbarker

Helps draw attention to promotions at the shelf edge. Fixes to most shelf label holders 20mm or taller.

Material: PVC

Pack size: 20

Size	Code
H76 x W150	534725
H76 x W210	534726
H100 x W210	534728

Wobbler Sign Holder for Datastrip

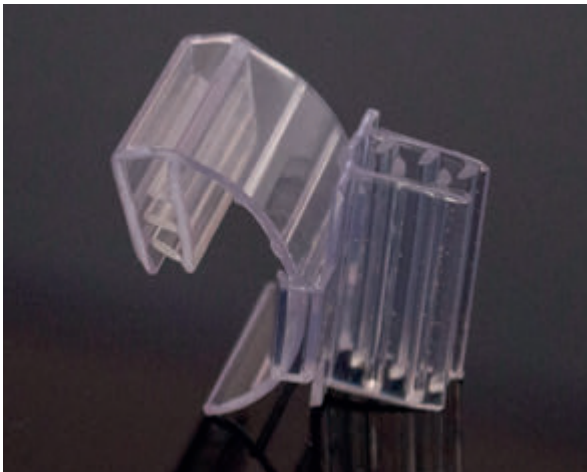

For shelf edge promotion that lasts longer as it has an integrated flexible spring. Suitable for all datastrip heights.

Material: PP

Pack size: 48

Size	Code
White	561596

Adjustable Sign Holder

Easily attach promotional signage to your shelf edge. The sign holder works with most shelf edge label holder variants.

Material: PVC

Pack size: 50

Size	Code
Flag for smaller signs - static (Print - 3mm max thickness)	300511

Spring Wobbler

The spring has an adhesive pad at each end for easy application of print.

Material: PP

Pack size: 100

Size	Code
L 33mm - white	703628

Sign Holder for Datastrip

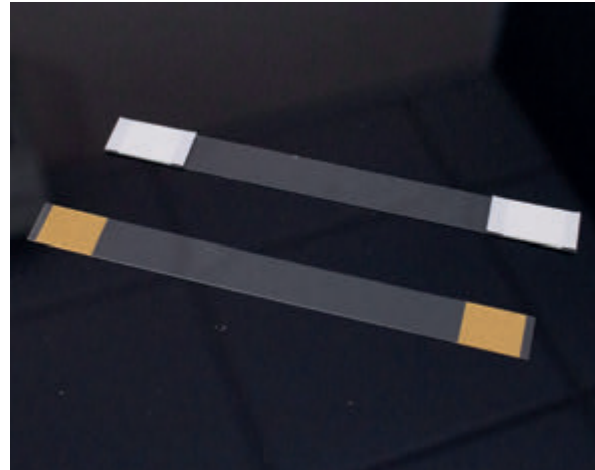

This sign holder can hold promotional signs at the shelf edge. Suitable for 30 & 39mm datastrip holders. The printed sign requires a 5mm hole so it can attach.

Material: PP

Pack size: 50

Size	Code
30/39mm	797565

Promotional Wobbler Strips

Wobbler strip will attach to almost any surface using the adhesive pads at both ends. Non-permanent tape.

Material: PVC

Pack size: 100

Size	Code
L 150mm - perm tape	624223
L 150mm - non perm tape	625025
L 170mm - pads same side	624221

Clip-In Aisle Sign Holder

Helps add additional signage to an aisle so customers can find products or promotions easily. Clips directly into your shelving uprights.

Weight limit: 0.4kg

Pack size: 5

Material: Aluminium

Size	Code
Telescopic, 605-750mm	701935

Magnetic Aisle Sign Holder

Magnetic aisle sign that fixes directly to the shelf. The arm can be repositioned to allow printed matter to hang straight.

Weight limit: 0.5kg

Pack size: 5

Material: PVC, Aluminium

Size	Code
White D9xL250mm	701933
Grey D9xL250mm	701932

Multivo Max™

Extra strength pusher tray

Made to last in high traffic areas and simplifies daily shelf maintenance.

Key benefits:

- Automatic front-facing ensures well-merchandised shelves.
- Allows staff to spend less time on repetitive tasks.
- Faster and easier fixture changes.

Multivo™ Front Fixing Rail

Fixing rail for Multivo and Multivo™ Max. Adheres to metal shelving with tacky magnetic tape.

Material: PVC

Pack size: 1

Size

1328mm

Multivo™ Max Wire Metal Pusher

Heavy duty pusher tray with angled pusher, ideal for chillers and freezers where extra strength is required. 385mm depth.

Material: Steel

Bulk food merchandising: 3eBin™ & 4eBin™

Bulk merchandising is a popular solution for many products such as confectionery, nuts & seeds, cereals & muesli, pet food, coffee, cooking ingredients, rice pasta & grains etc.

Bulk bins are ideal for retailers who want to merchandise products without packaging and remove plastic waste from their stores.

Customers have the freedom to buy the exact amount they need which also leads to reducing food waste.

4eBin™ Gravity Bin

New modern look gravity bin and now easier to clean and dismantle. Ideal for most bulk products and comes with a variable flow rate, false front, top lid and spout grip.

Pack size: 1

Size	Code
Scoop bin tether spare	709224

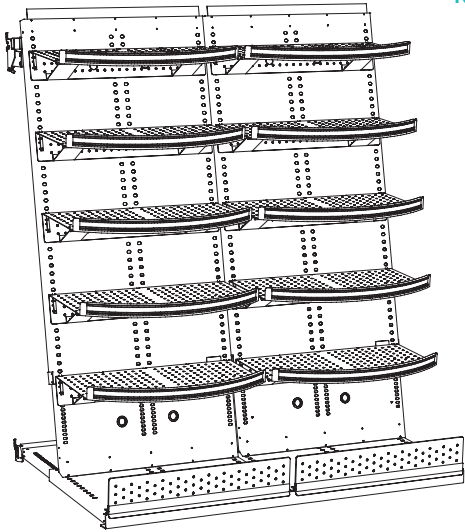

Fresh produce solutions: Sigma™

The Sigma™ merchandising system is designed specifically for the fresh category. It is manufactured from anodised aluminium which is naturally cold to the touch helping to keep produce fresher for longer in chillers. It also helps reduce food waste and allows produce to be displayed loose, removing plastic packaging waste from the display.

The result is a uniquely merchandised display that is easy to shop, creates in-store theatre and increases sales.

NEW!

Sigma™ Pod Kit Curved Shelves

Retrofits to existing chillers (subject to size).

Interbin® Angled Spigot

Ideal for holding cable reels, spools of wire or other items that require storage.

Material: Steel, Epoxy Coating

Pack size: 1

Size	Code
152mm spigot, 19mm tube with angle	746922
305mm spigot, 19mm tube with angle	751670

Interbin® Straight Spigot

Ideal for holding cable reels, spools of wire or other items that require storage.

Material: Steel, Epoxy Coating

Pack size: 1

Size	Code
152mm spigot, 19mm tube	746921

Interbin® Wire Hook

Wire Euro hook for use on our louvred panels. Ideal for simple and effective storage solutions to display products.

Material: Zinc Plated

Pack size: 1

Size	Code
152mm wire Euro hook	747333

Interbin® Wire Basket

Wire construction in a white epoxy finish.

Material: Steel, Epoxy Coated

Pack size: 1

Size	Code
L200mm W580mm H 200mm	747340
L200mm W1180mm H200mm	746863

Interbin® Slatwall Supergrip 60mm

The handy gripper attaches to the rear of the bin converting it to a slatwall fixing.

Material: PVC

Pack size: 1

Size	Code
Slatwall attachment for HC and MDI bins	746920

Interbin® A/B Cantilever Shelf

These shelves are ideal to maximise space over the wheel arch and can accommodate lengthy items such as pipes and conduit etc. Shelves include fixing brackets.

Material: Epoxy Coated Steel

Pack size: 1

Size	Code
Small - W1200 x D110 x H40 (White)	751660
Medium - W1200 x D165 x H40 (White)	751661

Interbin® Handy Pack

Interbin® Handy Packs are a quick and easy ready-to-go storage option. The panel size, bin size and colours are fixed within each pack. For customised panel, bin/colour configurations, these can be ordered separately.

Material: Steel (panel), PP (bins) **Pack size:** 1

Size	Code
A - Louvre Panel - W610 x H610 & all Yellow - 5 x MDI90, 8 x MDI130, 2 x MDI245	744634

Terms & Conditions

HL DISPLAY (UK) LIMITED

GENERAL TRADING CONDITIONS

These terms and conditions apply to all Contracts entered into by HL Display (UK) Limited

1 DEFINITIONS

"HL Display (UK)" HL Display (UK) Limited of 1-2 Horsecroft Road, The Pinnacles, Harlow, Essex, CM19 5BH

"the Contract" any contract for the supply of Goods and/or Services by HL Display (UK) to the Customer.

"the Customer" any customer of HL Display (UK) to whom Goods and/or Services are supplied by HL Display (UK) / under the Contract.

"Goods" any goods to be supplied by HL Display (UK) to the Customer under the Contract.

"Price" all charges expenses and other sums due to be paid by the Customer to HL Display (UK)

"Services" any services to be supplied by HL Display (UK) to the Customer under the Contract. "Quotation" any offer by HL Display (UK) for the provision of the Goods and/or Services to the Customer.

"Terms" the terms and conditions set out in this document and any additional terms and conditions agreed in writing by HL Display (UK) and the Customer.

2 ACCEPTANCE

2.1 These Terms exclude all other Terms and conditions including any implied by a course of dealing between HL Display (UK) and the Customer. Any variation of these Terms is only valid if agreed in writing by a Director of HL Display (UK).

2.2 The Customer is deemed to have accepted the Terms when it accepts HL Display (UK) Quotation.

2.3 For the avoidance of doubt, these Terms are to be read in conjunction with the provisions of the Unfair Contract Terms Act 1977, the Sale and Supply of Goods Act 1994 and the Unfair Terms in Consumer Contracts Regulations 1994 or any statutory modification thereof. Nothing in these Terms shall affect the statutory rights of a consumer.

3 QUOTATIONS

3.1 Quotations are valid only for 30 days from the date of issue unless agreed in writing by HL Display (UK). Any items not specified on the Quotation but requested by the Customer at any time will be charged in addition.

3.2 Value Added Tax and any other taxes, government charges or customs duties are not included in the Price and will be charged separately.

3.3 Carriage charges are not included in the Price and will be charged separately. HL Display (UK) Ltd reserves the right to vary the carriage charges from time to time.

3.4 The Price shall be paid to HL Display (UK) not later than 30 days from the date of HL Display (UK) invoice. Time shall be of the essence for payment. If the Customer does not pay within such period then HL Display (UK) may make a surcharge for allowing credit to the Customer between the invoice date and the date of actual payment by the Customer at the rate of 8% above the Bank of England base rate from time to time on the amount outstanding after as well as before judgement.

3.5 Should for any reason HL Display (UK) Limited be unable to trade on a credit account basis - the Customer will be advised of the terms and method of payment at the time the order is received by HL Display (UK) Limited. In such cases the order will not be processed until payment to the full value of the order is received by HL Display (UK) Limited.

4 DELIVERY

4.1 Unless otherwise agreed in writing time is not of the essence of the Contract but HL Display (UK) undertakes to use its reasonable endeavours to supply the Goods and/or Services in a reasonable time any time or date for delivery made by HL Display (UK) is an estimate only and HL Display (UK) shall not be liable for the consequences of any delay.

4.2 HL Display (UK) reserves the right to make delivery by instalments. In such event each delivery shall constitute a separate Contract.

4.3 Unless otherwise agreed in writing, delivery of the Goods and/or Services shall be effected at the place set out in the Quotation.

4.4 Signature of HL Display (UK) delivery note shall be conclusive evidence as to the quantity and quality of the Goods delivered unless within 7 days of receipt of the Goods, notice is given to HL Display (UK) of any errors in quantity and the Customer acknowledges that this period will give him a reasonable opportunity to examine the Goods.

4.5 In respect of any variation in colour of Goods supplied from the colour specified on the Quotation the Customer must return the Goods to HL Display (UK) within 14 days of the date of delivery. If there is a variation in colour then HL Display (UK) 's only liability shall be to re-supply the Goods to the Customer and pay for the reasonable extra transportation costs involved in returning and resupplying the Goods. If the Goods returned comply with the colour specified in the Quotation then the cost of transportation to HL Display (UK) and the return of the Goods to the Customer shall be for the Customer's account.

5 INDEMNITY

HL DISPLAY (UK) Ltd

6 RISK AND PROPERTY

6.1 The risk of the Goods shall pass to the Customer upon delivery but the full legal and equitable ownership of all Goods supplied by HL Display (UK) whether under the Contract or any other contract shall remain in HL Display (UK) until payment in full has been made. Until HL Display (UK) is paid in full for the Goods the relationship of the Customer to HL Display (UK) shall be fiduciary in respect of the Goods and the Customer shall clearly identify the Goods as being the property of HL Display (UK).

6.2 HL Display (UK) shall be entitled forthwith to recover and re-sell any such Goods to which HL Display (UK) has title and to enter upon the premises of the Customer with such transport as may be necessary for that purpose, if the Customer commits any default. The expression "default" shall include (but not be limited to) failure to pay HL Display (UK) on the due date, the appointment of a receiver of the Customers business, or the presentation of a petition to wind up the Customer. If the Customer makes default in any payment then HL Display (UK) shall have a lien for any amount outstanding to HL Display (UK) on any goods the property of the Customer which may remain in the possession of HL Display (UK) or its agents.

7 WARRANTIES

7.1 Unless otherwise agreed in writing and signed by a director of HL Display (UK), HL Display (UK) shall not be liable for any recommendations, advice, opinion or statement given or made by HL Display (UK), its servants or representatives

7.2 HL Display (UK) will not in any circumstances be liable for any loss or damage direct or indirect or consequential, sustained by the Customer which may in any degree be attributable to the adoption by the Customer or any third party or technical information, data or advice given by or on behalf of the Customer in relation to the use of the Goods. For the avoidance of doubt this sub-section is totally ineffective in respect of negligence resulting in death or personal injury.

7.3 For the avoidance of doubt HL Display (UK) hereby absolves itself from any liability in respect of any damage caused by un-authorised alterations to the Goods after delivery.

8 EXCLUSION AND LIMITATION OF LIABILITY

8.1 Where HL Display (UK) supplies Goods under the Contract save insofar as defects in those Goods cause death or personal injury, HL Display (UK)'s liability shall be limited as set out in clauses 8.2, 8.3 and 8.5 below.

8.2 Where HL Display (UK) supplies Goods under the Contract and those Goods cause loss or damage to the Customers property HL Display (UK)'s liability shall not exceed the lower of the value of the property lost or damaged (or its repair cost, whichever is the lower) and £100,000.

8.3 Where HL Display (UK) supplies Goods under the Contract and such Goods subsequently suffer loss or damage or deterioration caused by the negligence of HL Display (UK) or its employees or agents acting under its control then HL Display (UK) 's liability shall be limited to replacing those Goods lost or damaged.

8.4 Where HL Display (UK) supplies Services under the Contract save insofar as the provision of those Services causes death or personal injury caused by the negligence of HL Display (UK) or its employees or agents acting under its control then HL Display (UK)'s liability shall not exceed the lower of the value of the property lost or damaged (or its repair cost, whichever is the lower) and £1,000,000.

8.5 In no circumstances shall HL Display (UK) be liable for any consequential or indirect loss or damage of the Customer arising from any liability of HL Display (UK).

9 FORCE MAJEURE

9.1 Neither HL Display (UK) nor the Customer shall be liable for any failure to perform any part of the Contract if performance has been delayed hindered or prevented by any circumstances whatsoever which are not within the control of the party which is hindered delayed or prevented and are not preventable by reasonable diligence on its part.

9.2 Without limiting Clause 9.1 above neither HL Display (UK) nor the Customer shall be liable for any failure to comply due to any order or request of any National, Provincial, Regional or Local Authorities or for any delays caused by strikes, lockouts, Act of God or any other event beyond its control. If HL Display (UK) is at any time delayed hindered or prevented from delivering in whole or in part of the Goods and/or Services, then HL Display (UK) shall be at liberty to withhold, suspend or reduce delivery to such extent as is reasonable in all the circumstances. The Customer will then be liable for a rateable proportion of the Price. In no circumstances shall the Customer be entitled to rescind the Contract on the grounds of the failure by HL Display (UK) where the provisions of this Clause 9 apply.

10 INTELLECTUAL PROPERTY

10.1 HL Display (UK) remains the owner of all intellectual property rights in the Products and the results of Services, including inventions, models, designs, schedules, drawings, illustrations and all other documentation etc. comprised therein as supplied to the Customer. The Customer shall not copy, reproduce or circulate the above in whole or in part, without the prior written permission of HL Display (UK).

10.2 HL Display (UK) has not verified the possible existence of third party intellectual property rights which might be infringed as a consequence of the sales and/or delivery of the products and services and HL Display (UK) shall not be liable for any loss or damage in that respect.

11 TERMINATION

If the Customer commits a breach of these Terms or being a company a resolution or petition for its winding up is passed or presented or a receiver appointed or an administrator is appointed (or if an individual commits any act of bankruptcy or enters into a composition with his/her creditors or suffers any execution to be levied on his/her goods) or is the subject to any action which in the reasonable opinion of HL Display (UK) is prejudicial to the interests of HL Display (UK), HL Display (UK) shall be entitled in its absolute discretion to terminate the Contract or suspend its performance and all sums due to HL Display (UK) from the Customer shall become payable forthwith.

Materials & Processes

Materials

Acrylic

Acrylic is a plastic that can be polished at the edges and offers a gloss finish. It can be crystal clear or pigmented in a wide variety of colours. Brand colours can therefore be matched. Acrylic is easy to machine, it is cheap and reasonably strong but is also brittle and can be scratched. It can be bonded with adhesives. It is less suited to vacuum forming than other plastics, and acrylic is flammable therefore it may be less suited to use in displays where fire resistance is an important factor. Acrylic is impact resistant - it will break less easily than glass.

Styrene

Styrene is inexpensive, and comes in multiple colours which can be matched to a requirement. It is less brittle than acrylic and more flexible, but slower to machine. Styrene sheet comes with a gloss side and a matt side and it cannot be polished. The translucent material is not completely clear - it tends to have a colour tinge. It is good as a material for vacuum forming and is therefore well suited to shaped components in POP displays. Styrene is also one of the main plastics used in injection moulding.

PETG

Polyethylene Terephthalate Glycol is usually supplied as a clear sheet and has excellent transparency. It is easy to vacuum form. PETG can be bonded with adhesive but cannot be polished. It is not brittle, has high impact resistance and is resistant to chemicals such as cleaning materials. PETG can be cut with a saw, drilled or otherwise machined. Self-extinguishing when set alight but in a fire situation produces thick black smoke.

ABS

Acrylonitrile Butadiene Styrene is very strong and is in many ways similar to polycarbonate. It offers good surface quality and colour fastness, and can be machined. ABS is a medium strength, medium cost material. Because it is such a strong and hard wearing material it is probably on your desk - many telephone handsets are made of ABS. Low flammability.

Polycarbonate

Polycarbonate is a very strong stiff and hard material that can be moulded, bent, and machined. It is relatively expensive. Polycarbonate comes in all colours but is not suitable for vacuum forming. Polycarbonate does not burn easily.

PVC

Polyvinyl chloride, a very flexible plastic which should not break or shatter but has little rigidity. Clear PVC is not as crystal clear as acrylic or styrene.

Processes

Injection Moulded

Plastic is liquefied and forced (injected) into a mould. This process is more suitable for larger production runs due to the mould being metal and highly engineered.

Vacuum Forming

Plastic is heated and allowed to almost melt over a 'form' of metal or wood to take its shape. This process is suitable for smaller production runs due to it being less expensive in set up.

Flame Polishing

Literally heating the edges of acrylic which melts it sufficiently to give it a sheen or a polish. Styrene and PVC do not respond in this manner and therefore cannot be treated in this way.

Heat Bending

Making a bend or fold in one direction by laying the plastic over a hot wire element and melting it sufficiently so that it can be bent.

Fabrication

Cutting, bending and hand assembling.

Powder Coating

A protective finish which is baked on.

Plastic Coating

A more expensive covering of tough plastic.
