

INTERBIN®

Made in the UK since 1976

Interbin® high quality Storage systems

Organise your work space today!

InterBin®

First introduced in 1976, our original bin designs have been developed and refined over many years with great features not found elsewhere. All our bins are built to last and are injection moulded in high grade, impact resistant polypropylene, meaning they are tough and recyclable.

The bins come in a range of sizes, are available in four distinctive colours plus translucent and have label slots for easy product coding and identification.

Widely used in different areas :

- / Manufacturing & warehousing
- / Engineering workshops and vehicles
- / Electricians
- / Engineers
- / Aerospace
- / Auto workshops
- / For both business and personal use

Key Features

- / **Reinforced side supports** - Gives bin extra wall strength. Also provides ultra strong support for stacking.
- / **Flat Base** - Textured flat base grips to work surfaces
- / **Smooth contour rounded front edges** - Attractive design for added safety in handling
- / **Positive Finger Grip** - For easier, safer handling when locating on or removing from Louvre panels or shelving.
- / **Index Label section** - Highly visible position for instant identification of contents. Labels available separately.

HC Bin Range

- / Market leading quality and strength
- / **Lifetime guarantee** on HC Bins
- / Increased storage capability
- / Injection moulded in high grade Polypropylene
- / Five bin sizes
- / Four primary colours, plus transparent
- / Wide range of accessories
