

Lawn Jockey Quotation Information

To ensure the best result with the painting, please provide all details in full along with artwork in a PDF or a photo. We use the Hyland Colour chart as the basis for colour matching; please note there will be slight variations between colours on fabric & the colours of paint. If your colours are not Hyland colours, please tick the box. We will then work with you to get the best match. (Yes, there are some variations). The Lawn Jockey weighs 75kg, we need a full address to provide a shipping quotation. 2 Jockeys fit per pallet, so reduces the shipping cost on the second Jockey.
