Welcome to Retro Lifestyle...
RADIO ONE

In the never ending quest to bring you outstanding accoutrements of life, we are embarking into new/old territories. RADIO ONE is the beginning of a series of products that will add charisma to your already unique style. The material is BAKELITE. Yes, from the old radios, telephones, and electrical appliances. The properties of this phenolic resin are numerous. Heat resistance, strength, and weight; but the best is the aging. The colors will change becoming even more lustrous as they age. The deep colors of the past will enhance any decor, and when passed down through generations will bring joy to behold.

RADIO ONE is styled from the ART DECO period with sweeping lines and curved excellence. There has been no expense spared in the electronics of this piece. Tuner with AFC and tone control, excellent antenna properties, and a speaker sound that will blow you away. Really cool artwork that sounds like a concert hall at your desk or in your den. We hope you will enjoy this wonderful combination of old and new technology.

Please stay tuned for future projects,
g

Script **MASTER**

It's easy to overlook the simple pleasures of life in the rush of modern living. The Scriptmaster is inspired by the days of old charm, simple luxuries, and an appreciation for those pleasures. Each one is trimmed with platinum and made of cellulose acetate, a classic retro material that is vibrant in color and warm to the touch. No two pieces are the same. Pick up a Scriptmaster and let the written word flow gracefully.

TORNADO

This Pen will Blow You Away!

Tornado Fountain
The Original is now available in a Fountain Pen. Choose from classic lacquer or acrylic colors. The extra large nib is available in fine, medium, and broad.

Tornado Classic
The first Tornado is still a favorite! With its vibrant colors and smooth flowing rollerball cartridge, you will never reach for another pen.

Tornado Deluxe
These are Tornadoes with an extra twist! Choose from exotic metals, leather, acrylic and designer etched or imprinted bodies.

Groove Writer
Inspired by the 70s, each pen is lacquered over an aluminum body and diamond cut with a cool design.

Big Shot
Everyone is the boss with this thicker version of the Tornado. It is available in acrylic and soft touch lacquer versions.

Tornado Pencil
If you think writing with a rollerball is smooth, try the Tornado pencil. The pencil uses a broad 0.9mm lead for a smooth, strong stroke, with an eraser on top.

Elite and Groove Jr.
This popular ballpoint has caused a stir with its conveniently compact size. This smaller version of the Tornado is available as a glossy lacquered Elite or a 70s inspired Groove Jr.

All Tornadoes are shown to actual size
