RESCUE TORNADO

**NATIONAL MUSEUM of
AFRICAN AMERICAN
HISTORY & CULTURE**

A People's Journey
A Nation's Story

Corona SRR-1818*

Officially Licensed Writing Instruments by Retro51

The first design in the Smithsonian collection by Retro 51 is the *Corona* twist-top rollerball pen. Its deeply etched barrel is reminiscent of the ornamental bronze-colored metal lattice that covers the outside of the National Museum of African American History and Culture building in Washington D.C. Lead designer David Adjaye pays homage to the intricate ironwork crafted by enslaved African Americans in Louisiana, South Carolina, and elsewhere through the use of this design. Each rollerball pen is numbered on the top ring and complete with matte black nickel accents and loaded in a commemorative Smithsonian NMAAHC tube.

The National Museum of African American History and Culture is the only national museum devoted exclusively to the documentation of African American life, history, and culture. A portion of the proceeds from the sale of this pen will support and further the Museum's educational mission on what it means to be an American, and to share how American values like resiliency, optimism, and spirituality are reflected in African American history and culture.

RESCUE TORNADO • Collection of twist-top ballpoint pens with proceeds of each sale going to a nonprofit group. Each pen comes packaged in a matching tube with more information about the group plus education on the issue at hand.
