NuCAN^{MC} ADVANTAGES

Protection - blocks out 100 percent of light and oxygen, tamper-resistant and tamper-evident. Longer shelf life 3 years compared to most other containers on the market.

Safe Lacquer - Each can has a food grade internal lacquer BPA FREE with no metal aftertaste - rust proof materials.

Promotion - provides a large, 360-degree billboard with 4 dynamic colors. Nutritional values on each can. Stands out at the point-of-sale.

Portable - lightweight, unbreakable and easy to hold, so they can go anywhere consumers go.

Quick chilling - gets cold faster and stays cold longer - can stay out longer on the table .

Recyclable - 100 % recyclable and durable, can be recycled infinitely with no loss of quality.

Reusable - Can reuse the can for other uses - even a water bottle !

Traceability - Each can has a lightly printed code under the can. This helps identify and trace production flaws in case of product recalls or inspections.

Shipping - Lower cost to ship due to its lighter weight - Less carbon footprint = Good for the environment. Easier, cost-effective to transport - lightweight, stackable and have a high cubic efficiency. Great for on-line sales !

Easy closing cap - easy closing twist lug cap with shorter thread and less fuss to open and close - choice of colors.

Tamper evident - Closing cap can be used with pop up feature - tampering with the product will cause the pop up on cap to rise.

Personalize - Each can has an area for you to place your label with coordinates.

available in two colors
