What is the difference between Aranet4 HOME and Aranet4 PRO?

Aranet4 HOME

FOR A SINGLE, PRIVATE USER IN STANDALONE MODE

If you plan on using only a single Aranet4 device privately – the **Aranet4 HOME is for your home**! With Aranet4 HOME you can:

- ✅ Understand if you have proper ventilation at home
- ✅ Get notified when you need to open a window to let the fresh air in
- ✅ Bring it with you everywhere you go to ensure that you are always spending time in a healthy environment
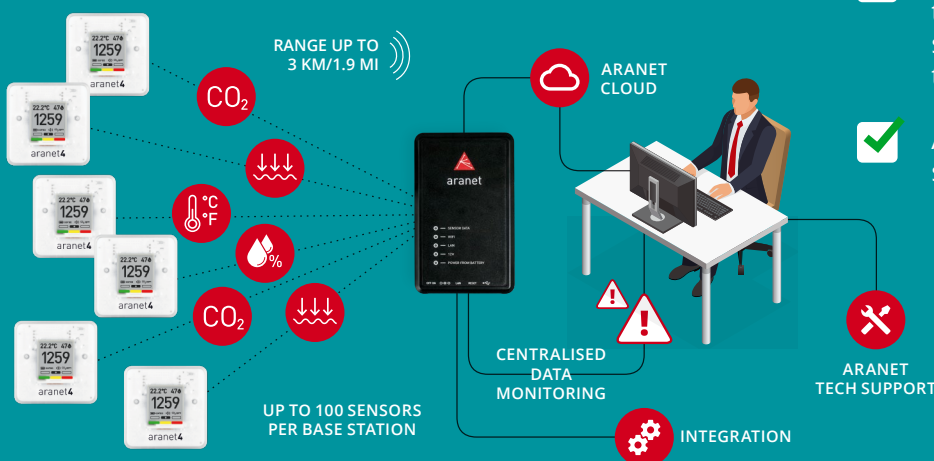

Aranet4 PRO

FOR PROFESSIONALS – BUSINESSES, SCHOOLS, OFFICES AND OTHER FACILITIES

If you plan on using more than one Aranet4, Aranet4 PRO is your best choice. Aranet4 PRO offers many benefits:

- ✅ Networked solution – up to 100 Aranet4 devices in a single long-range wireless network via the **Aranet PRO base station**
- ✅ **Centralised data monitoring** for a complete overview of the situation
- ✅ Possible upgrade to **Aranet Cloud** – network virtually limitless number of Aranet4 devices from different locations with advanced analytics, visualizations and much more
- ✅ Integrate into existing solutions – make the Aranet ecosystem part of your own solution or just automate data export to your own data bases
- ✅ Access to professional technical support
