

Flagship VIRUSKILLER™ technology in a compact wall-mountable package.

The VK 401 is our flagship compact unit, designed to control the airflow in a mid-sized room with the full power of VIRUSKILLER™ real-time protection.

Features

- **All-in-One:** Unrivalled performance against organic pathogens – viruses, bacteria, mold, and fungi – as well as allergens, irritants, smoke, and VOCs.
- **Single Air Pass:** Decontamination performance measured in only a single air pass.
- **Airflow Control:** VIRUSKILLER™ precision airflow control draws contaminated air away from occupants, expelling clean, fresh air into the breathing zone of the room.
- **Flexible Installation:** The VK 401 can be placed freestanding on a surface or shelf, or wall-mounted to free up valuable floor space.

Technical Specifications (H13 HEPA)			
Coverage	60 m ² (645 ft ²)	Carbon Filter Lifespan	4,000 Hours
Net Weight	12.9 kg (28 lbs)	Pre-filter	Washable
