

MULO Wonderbuds 500 Overview

How to Wear

Insert the Earbud into your ear and rotate to fit comfortably. Ensure that the microphones (pointed portions of the earbuds) are pointed towards your mouth for best output.

For the best audio experience, it is recommended to try each of the different FarGel sizes. The objective of this activity is to ensure that the fit feels tight and secure in your ear. The FarGel should be firmly attached.

How to Charge

MULO Wonderbuds 500 offers upto 15.5 hours of battery life. This includes 4.5 hours of battery in earbuds, and 11 hours in the charging case for recharging the Place the earbuds in the charging case and close the lid. It takes approximately 2

hours to fully recharge the earbuds.

When the charging case is opened, the digital display will indicate the current charge percentage in the case.

Plug the supplied USB-A to USB-C charging cable into the charging case and a USB-A power supply or certified wall charger. The charging case uses the standard USB voltage. It is not recommended to charge the earbuds using a power supply with a higher voltage.

Note: non-certified chargers may take longer to charge

LED Indicator of Earbuds: Scenarios

Standby (Disconnected, Pairing) Red and Blue Lights flash alternately

Standby (Connected) No Light

Incoming Call

Red light blinks twice and Blue light blinks once continuously (only on primary earbud)

In Active Call No Light

Charging

Stable Red light

Full Charge

Stable Blue light for 1 minute and then light switches off

How to Pair

Remove the earbuds from the charging case to power on and the earbuds automatically enter pairing mode (Red and Blue Lights flash alternately)

Activate the Bluetooth function of your mobile phone or Bluetooth enabled device and select "Pair New Device" in Settings. Search and select WONDERBUDS 500 from the devices list to connect.

Once paired, the LED lights on the earbud switch off and you will hear a "connected" voice tone.

Note: When charging case has no charge, you need to power on the earbuds manually by touching the earbud and holding for 3 seconds.

Caution: After pairing success, if any disconnection in earbuds is experienced while playing media on phone or compatible Bluetooth device, please check and ensure that internet or mobile data connectivity is consistent.

Auto power Off

You cannot manually power off the earbuds. The earbuds will automatically power off when they are out of range of your smartphone for around 2 minutes and not in charging case, or when they have been in pairing mode for long time.

To power the earbuds on, touch and hold each of the earbuds for 3 seconds (not required simultaneously). Alternatively, place them in charging case and then take them back out

How to reset

Resetting the earbuds clears the list of paired devices and resets all setting. Please follow below steps to reset:

- 1. When in power off mode, touch the earbud and hold for 8 seconds till the LED flashes purple light 4 times
- 2. Remember to delete/forget the pairing in the Bluetooth menu on your smartphone or other device
- 3. The earbuds will need to be re-paired to your device after the earbuds are reset in the previous step

Support

How to care for your earbuds

Always store the earbuds in the charging case and safely protected.

To conserve battery life and capacity for longer period, avoid storing the earbuds in too hot or too cold environments, such as closed car in summer, or in harsh winter conditions.

Do not store the earbuds for extended periods of time without recharging them (max, three months)

The charging case uses the standard USB voltage, It is not recommended to charge the earbuds using a power supplier with a higher voltage.
