

STANDARD AND OPTIONAL EQUIPMENT

○ : Standard ● : Optional

● Safety equipment		HD50V5	HD60V5	● Working equipment		HD50V5	HD60V5	● Piping and others		HD50V5	HD60V5
ROPS canopy			○	Bucket	0.08m ³	●	●	Anti-drift valve		●	●
TOPS canopy		●	●		0.11m ³	○	●	1st aux. piping for attachment(W/A selectable)		○	○
Safety lock lever		○	○		0.14m ³	○	●	2nd aux. piping for attachment ※3		●	●
Retractable seat-belt		○	○		0.16m ³	●	●	3rd aux. piping for attachment		●	●
Boom working light ※1		○	○		0.18m ³	-	○	Aux. piping proportional control ※4		●	●
LED boom working light ※1		●	●	Arm	STD Arm	○	○	Stop valve for 1st aux piping port		●	●
Front and Rear working light(Only cabin: Front 2, Rear 1)		●	●		Long Arm(+250mm)	●	●	Pattern change valve(AB) ※5		●	●
Rear side mirror (only cabin)		●	●		Super Long Arm(+500mm)	●	-	Pattern change valve(AF) ※5		●	●
Automatic parking brake (slewing table)		○	○	Dozer blade Reinforced type		○	○	Pattern change valve(ABCD) ※5		●	●
Automatic parking brake (traveling)		○	○	Additional counterweight (+290kg)		●	-	Cold region battery		●	●
Caution indication		○	○	● Operation room option (only cabin)		HD50V5	HD60V5	Designated paint		●	●
Swing table under cover		○	○	Heater ※2		●	●	Relief valve for aux port(13.7MPa)		●	●
Reinforced hose(partial)		○	○	Air conditioner ※2		●	●	Relief valve for aux port(17.2MPa)		●	●
Rear side reflective plate		○	○	AM radio		●	●	● Maintenance		HD50V5	HD60V5
Engine fan guard		○	○	● Operation room		HD50V5	HD60V5	Double element air cleaner		○	○
Secondary engine stop switch		○	○	4-post canopy (ROPS)		○	○	Cartridge type return filter		○	○
Tie down point		○	○	2-post canopy (TOPS)		●	●	Hydraulic oil tank with air breather system		○	○
Front guard(ROPS, cabin)		●	●	Cabin (ROPS)		●	●	Side by side cooling		○	○
Traveling alarm		●	●	● System		HD50V5	HD60V5	Plastic fuel tank		○	○
● Operation seat		HD50V5	HD60V5	Mode selection (Vmax mode / ECO mode)		○	○	Large fuel filter		○	○
12V electric supply port		○	○	Auto-idling mode		○	○	Water separator with electric sensor		○	○
Cup holder		○	○	Auto transmission		○	○	Dustproof net in front of radiator		●	●
Arm rest		○	○	● Traveling equipment		HD50V5	HD60V5	Castle nut for adjustment (boom tip)		○	○
Electric control throttle knob		○	○	Shoe	400mm high-durability rubber shoe	○	○	Castle nut for adjustment (arm link)		●	●
Multiple one-key		○	○		400mm steel shoe	●	●	Engine error code display		○	○
Manual storage box		○	○		Traveling frame undercover		○	○	Engine diagnosis CAN service connector		○
Analogue monitor		-	-	● System		HD50V5	HD60V5	Tool set		○	○
Analogue monitor(engine error code)		○	○	Mode selection (Vmax mode / ECO mode)		○	○				
Seat suspension		○	○	Auto-idling mode		○	○				
				Auto transmission		○	○				

※1 Cannot be installed at the same time ※2 Cannot be installed at the same time ※3 2nd or 2nd and 3rd aux piping cannot be selected without the 1st aux piping ※4 E grip type ※5 Cannot be installed at the same time

Advanced low center of gravity design

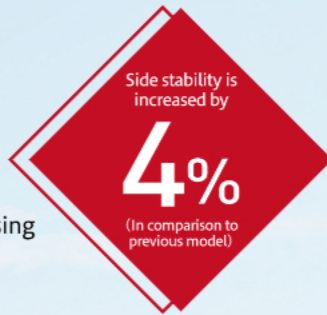

Powerful Strong Reliable

This powerful machine fits various jobsites!

Workability & Economy

High Stability

Stability is enhanced in comparison to the previous model by lowering the center of gravity.

High Operability

Improved operability by reducing shocks and increasing stability enables smooth and powerful operations.

Operating Mode Selection

Vmax mode is for speedy operation and ECO mode is for lower fuel consumption.

Enhanced Dumping Height

HD50V5 1,930mm HD60V5 1,830mm

Easy Fueling

The fuel filler port is placed at a lower position for easy fueling.

Powerful Operation

Isochronous control system maintains engine speed even if the workload changes.

Fully-versatile Easy Skimming Work

The closer distance between bucket teeth and dozer blade allows it to skim the ground easier.

Auto-idling Function

Optimum engine speed is provided automatically in a few seconds after returning the joystick levers to the neutral position.

Safety

ROPS-compliant 4-post Canopy

4-post canopy with a retractable seat belt is available as standard feature. Safety of operator has significantly improved (Fasten your seat belt when you operate).

Engine Start & Safety Lock System

The engine is turned on when that lever is in the neutral position. Auto-parking brake is activated when the lock lever is raised (Including dozer blade and swing). It offers high operating safety and prevents unexpected movements.

Traveling & Swing Parking Brake

Parking brake is equipped to prevent unexpected movement and secure safety.

Emergency Engine Stop Switch

It is possible to stop the engine from outside of cabin at emergency situation.

Durability

High Durable Rubber Shoe "TOUGH TRACK"

The durability of rubber shoe is improved by spiral structure with great rug pattern and anti-corrosion steel cord.

	Conventional	Tough Track
Core metal shape		
Core metal edge FEM analysis		

Working Light under the Boom

The light is installed to under the boom and protected from damages.

Reinforced Boom Cylinder Cover

The V-shaped double structure reinforced boom cylinder cover prevents the cylinder from damages.

Reinforced Dozer Blade

Dozer blade arm adopts sturdy square tube structure. It is strong and durable against twist.

Traveling Auto-shifting Mode

Traveling speed 1 and 2 are automatically changed according to the traveling motor load. Can set only speed 1 by operating the switch on the dozer lever.

X-shaped Lower Frame

This structure enhances the strength against twist. Mud drainage performance has increased and cleaning is now carried out with ease.

Boom Swing Pin

Single large size pin reduces the wearing and the rattling sounds.

Comfortability

Comfortable Operating Station

This spacious operating station reduces operators fatigue.

12V Electric Supply Port

Equipped with an electric supply port. (12V 10A)

Monitor

Brand new display with improved visibility of display due to the always lit LED light. Engine error code on the display supports efficient maintenance.

Comfortable Lever Control

Appropriate lever length and remote valve enhance lever operating comfortability. It also reduces the operators fatigue.

Great Access

Access to the operator seat has been improved by lowering the step height.

Cup holder

The cup holder is installed.

Maintenance

Good Access to Service Ports

Fully-opening rear and right-side covers give you a good access to the engine and other service ports.

- 1 Fuel filter
- 2 Water separator with electric sensor
- 3 Air cleaner (Double element)
- 4 Side by side cooling
- 5 Hydraulic oil return filter
- 6 Battery
- 7 Control valve

Steel-pressed Cover

Durable steel cover is adopted and it is easier to repair damage such as scratch and dent.

Air conditioner

Heater
