

HydroPeptide Firma-Bright 20% Vitamin C Booster *Anti-Wrinkle Collection*

What it is: This super-potent Vitamin C booster is formulated with free-radical fighting antioxidants and radiance boosting peptides to protect your skin and improve the appearance of dullness, fine lines and wrinkles.

- Firms sagging skin
- Brightens accumulated pigmentation
- Protects skin using potent antioxidants
- Reduces inflammation in skin

Who it's for: Suitable for all skin types, especially sagging, aging, pigmented skin.

How to use it: Dispense 3-4 drops into hand and apply directly to skin or mix with preferred serum or moisturizer. May be used AM & PM.

Available Sizes: Retail Size 1 FL OZ (30 mL) | Professional Size 1 FL OZ (30 mL)

Key Formulated Ingredients:

Vitamin C (Sodium Ascorbyl Phosphate)	Collagen Activator + Skin Brightener	A high dosage of Vitamin C has been shown to stimulate collagen synthesis in addition to its ability to brighten skin.
Granactive 1518	Skin Brightening Peptide	Granactive 1518 is a peptide combined with key skin brighteners such as resveratrol and mulberry designed to reduce the level of pigmentation and skin damage that occurs to sun exposed skin by inhibiting enzymes responsible for hyper-proliferation, inflammation and DNA damage in response to UV radiation.
Reproage®	Epigenetic Peptide	Inspired by epigenetics, helps re-invigorate skin regeneration abilities for an improved, more youthful appearance.
Ellagi-C™	Collagen-Booster	A bark extract that encourages collagen synthesis to diminish the look of lines and wrinkles.
Niacinamide	Antioxidant + Skin Softener	Potent vitamin antioxidant (B3) which protects against free radical damage and remains stable despite light and heat.

FULL INGREDIENT LIST:
