

HydroPeptide LumaPro-C Skin Brightening Pigment Corrector

Targeted Solutions

What it is: Safely brighten your complexion with this drug-free hyperpigmentation corrector.

- Helps to resurface and fade existing pigmentation
- Helps to inhibit future hyperpigmentation
- Delivers a brighter, more even complexion
- Nourishes and brightens skin with potent antioxidants

Who it's for: Appropriate for all skin types, especially those with hyperpigmentation, sun damage, and aging skin.

How to use it: Apply a small amount to a clean face and neck. May be used AM & PM. Follow with appropriate moisturizer and sunscreen.

Available Sizes: Retail Size 1.0 FL OZ (30 mL) | Professional Size 2 FL OZ (59 mL)

Key Formulated Ingredients:

DermalRX® SRC	Resurfacing Peptide	Helps to loosen keratinized cells to enhance skin texture and fade pigmentation without damaging effects.
Vitamin C (BV-OSC)	Skin Brightener	Stable form of Vitamin C that inhibits melanin production and has been shown to fade existing pigmentation
Metabiotics™ Resveratrol	Brightening Antioxidant	Powerful antioxidant that provides a rich source of polyphenols to nourish and protect the skin as well as provide brightening properties.
Brightenyl®	Probiotic Skin Brightener	This new generation skin melanoregulator is activated by the stratum microbium and restores an even skin tone by blocking the melanogenesis process at several levels. It also protects the skin and prevents inflammation, therefore controlling skin redness.
ALGAKTIV® LightSKN	Skin Brightener	Liposome encapsulated microalgae blend that brightens and evens skin tone and reduces age spots.
Belides™ NP SymVital® AgeRepair SymWhite® 377	Brightening Antioxidants	Antioxidant-rich daisy flower, ginger root and pine extracts that reduce pigmentation and redness while improving skin radiance.
