

HydroPeptide Triple Acid Peptide Peel

Resurfacing Facial Treatment

Anti-Wrinkle + Detox Collection

What it is: This leave-on face peel is designed to encourage cell turnover and improve signs of aging. A combination of triple-acid complex, algae extract and skin-renewing peptides enhance your skin's natural glow and reduce the appearance of fine lines, wrinkles and dark spots over time.

- Helps to reduce the appearance of fine lines and wrinkles
- Softens rough texture
- Helps fade hyperpigmentation
- Encourages cell renewal
- Fortifies the skin against blue light, pollution, and other forms of oxidative damage

Who it's for: Suitable for all skin types, especially those struggling with textured, hyperpigmented and environmentally-stressed skin.

How to use it: Apply to a cleansed face in the evening 2–3 times per week. Follow with a serum and moisturizer of choice. Rinse off the following morning. Use SPF the following morning.

Available Sizes: Retail Size 1 FL OZ (30 mL)

Key Formulated Ingredients:

Glycolic Acid (5%) Lactic Acid (2.5%) Malic Acid (2.5%)	AHA Blend	Breaks down the bonds between surface skin cells to encourage healthy cell turnover and reveal a more radiant and youthful-looking complexion.
Perfection Peptide P3	Exfoliating Peptide	Reactivates the natural desquamation process in the epidermis to encourage healthy cell turnover.
ACB Fruit Mix	Exfoliant	A blend of botanical extracts that naturally contain AHAs. (bilberry, sugar cane, sugar maple, orange, and lemon)
Royal Jelly Peptide	Epigenetic Peptide	Mimics the effects of a royal jelly protein to stimulate cellular regeneration and help skin create healthier cells for a more even texture and tone.
Bicoalgae® XT	Carotenoid-Rich Algae	Double encapsulated carotenoid-rich algae with targeted delivery to the skin. Provides proven antioxidant protection from blue light, pollution, and increases overall health, firmness, and brightening of the skin.
Chamomile + Grape Seed Extracts	Antioxidant Soothing Agents	Botanicals rich in antioxidants like vitamins C and E, and phenolic compounds. Both aid in hydration and provide soothing, anti-inflammatory benefits.
