

CONSCIOUS CHRISTMAS

GIFTING GUIDE

2021

LETS GROW TOGETHER

Christmas is our favourite time of the year so if you are looking for clean, ethical and conscientious skincare and gifts, then we think we have something suitable for Every Body. Let's wrap it up differently this year and focus on respectful replenishing. Our gift boxes are 'grown to order' in the UK from mushroom mycelium a natural alternative to fossil fuel produced polymers. They are 100% compostable and break down naturally so you can either drop into your green waste or plant in the garden.

THE NEED

Over 300,000 tonnes of laminated card packaging thrown away used during the festive season. The laminate on these gift boxes takes 4000 days to degrade and then laminate breaks down into micro-plastics that harms the environment for up to 500 years. The traditional artificial dyes in packaging are also toxic to the environment.

OUR SOLUTION

Our stunning gift boxes are grown in seven days using mushroom technology called Mycelium and agricultural waste such as hemp stalks. They are 100% compostable and break down naturally in just 40 days, so you can either drop into your green waste or plant in the garden. Our new Christmas bottles and pumps are made using 100% PCR recycled plastic. All the dyes that we use are vegetable based and are absorbed naturally by the soil.

CANDLES

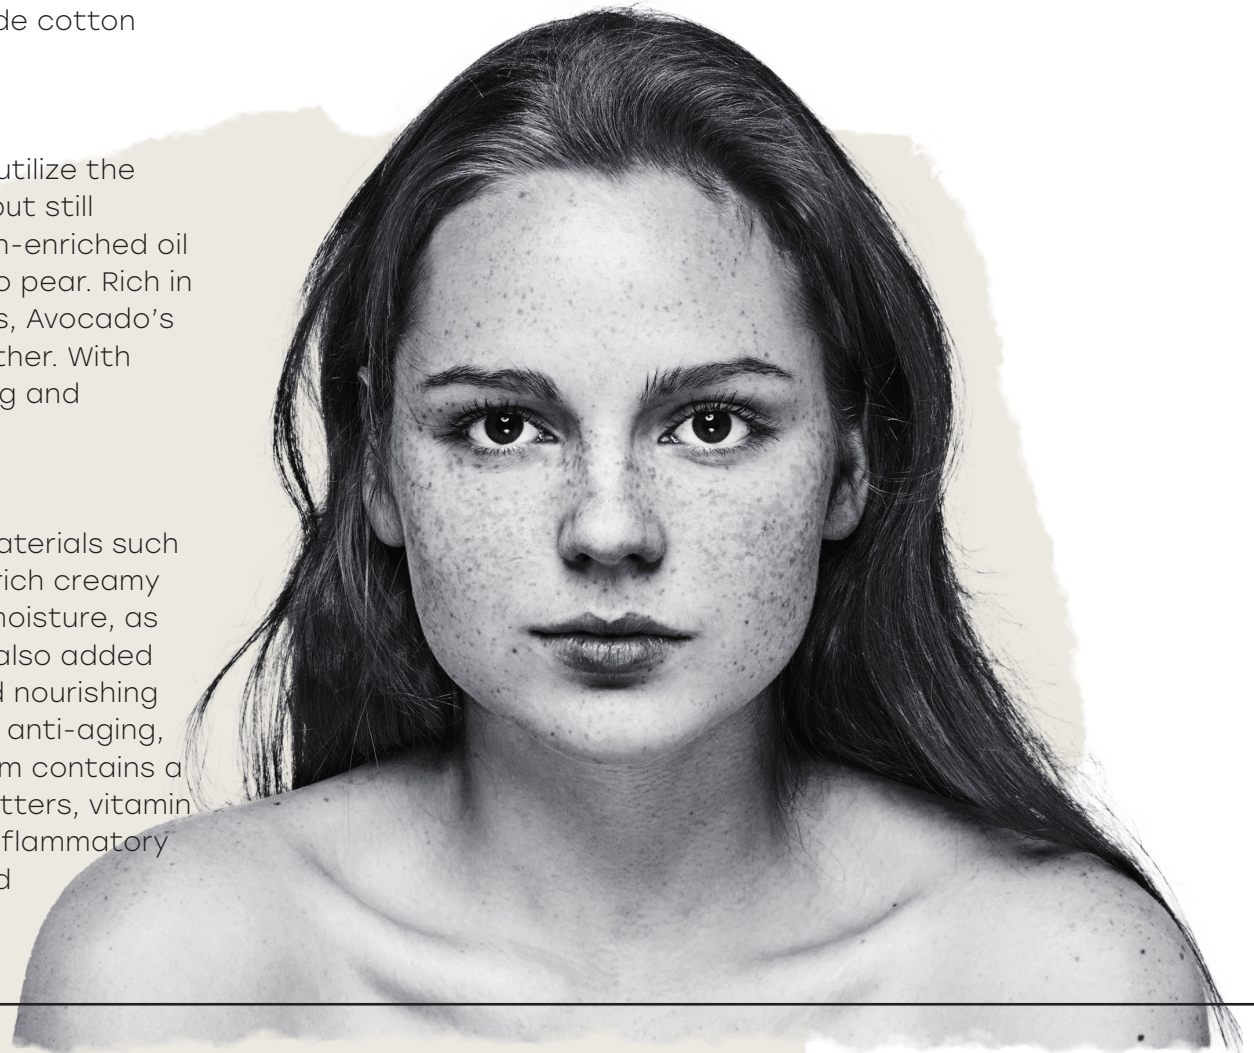

Our beautiful Ceramic candles are handmade in the UK by an artisan craftsman. The vegan coconut and rapeseed wax is then blended with essential oils and hand poured around a British made cotton wick so ensure a slow, even, no-soot burn.

AVOCADO OIL

Our Avocado Oil originates from South Africa where we utilize the damaged Avocados, that are not fit for sale as a fruit but still contain all their life boosting goodness. This high vitamin-enriched oil is delicately cold-pressed from the flesh of the Avocado pear. Rich in vitamins A, B1, B2 & D, essential fatty acids, and minerals, Avocado's ability to penetrate and absorb into the skin is like no other. With super healing properties, this wonder oil aids in hydrating and repairing mature, damaged or dry skin.

BERGAMONT & BLACK TEA HAND CARE

Our natural hand wash is derived from renewable raw materials such as; Coconut Oil which creates a gentle cleanser with a rich creamy foam, Glycerine a powerful emollient to lock the skin's moisture, as well as soothing, anti-inflammatory Aloe Vera. We have also added Bilberry extract, known for its astringent, cleansing, and nourishing properties as well as Mango extract, for its antioxidant, anti-aging, and collagen booster properties. Our natural hand cream contains a super nourishing blend of Coconut, Shea, and Cocoa Butters, vitamin E to lock in moisture as well as skin-soothing and anti-inflammatory Almond oil, and Rosehip oil, known for its brightening and anti-aging properties.

Sustainability is no longer about doing less harm, it's about doing more good. We are proud of everything we do at Natural Spa Factory to create a more sustainable way of life and are continually taking steps to ensure our products are eco-friendly. Our new Christmas bottles are made using 100% PCR recycled plastic and our mushroom gift boxes are 100% compostable.

Together, we can make a positive impact on our precious planet.
