NOSTALGIA SUMMER TREATMENT MENU

Echoes of Euphoria

Revisiting delightful memories is a refreshing journey for the mind, body, and soul. It offers an opportunity to transport oneself to happy events and carefree days of youth, basking in laughter, cherished friendships, and the joy of discovery. These memories bring nostalgia and contentment, reminding us of the happiness that has illuminated our path. In these recollections, we find a sanctuary where present stresses fade, allowing us to savour the sweetness of days gone by.

Waves of Reminiscence — £9.13

This body wrap contains Green Tea, Red Tea, White Tea, and Mint Leaves and has anti-oxidizing and anti-allergic properties that help fight against skin ageing and protect the skin from the damaging effects of free radicals. The leaves contain various active ingredients, such as theanine, polyphenols, flavonoids, and vitamins C and E. These compounds can help slow down the ageing process, draw toxins out of tissues, and break down fatty acids. Rice bran oil can help slow down the ageing process, improve skin elasticity, and give a more youthful and plump appearance, helping to turn back time.

Foot — whilst the wrap does its magic, perform a soothing foot massage.

Remove — optional shower or buff the wrap away, leaving the skin fresh and ready for the massage.

Rhassoul Mud is a natural mineral clay sourced from the Austrian Alps. The clay contains Mica, which helps improve the feel of your skin, Bentonite, an excellent detox aid, and Silica, which aids skin regeneration and has moisturizing properties. These authentic detoxifying muds have been used for decades as part of a cleansing ritual that combines steam and heat to draw out impurities and remove dead skin cells. Our mud is naturally sourced and has absolutely nothing added to it.

Mud is also known to have anti-inflammatory properties, which can alleviate aches and pains, including pain from rheumatoid arthritis. Some people use mud to simply de-stress, relax, and boost their well-being, or to have a bit of fun painting it onto their skin in a Rasul with a partner or close friends.

Mud Body Wrap

Scrub — begin the treatment with a scrub to open the pores and slather away any dead skin, followed by a shower.

Apply — have your client lay down on a sheet of plastic, towels, or thermal blanket and apply the mud all over the body.

Wrap — wrap in covers for 20 minutes, so that the heat of the wrap relaxes the muscles and allows the body to absorb the mud's benefits.
