A new addition to join the popular Criss Cross Coffee base range. The Criss Cross table frame is made from fully welded mild steel making a durable stylish choice for commercial and residential spaces. It can be purchased as a standalone frame or fully assembled with a top included. The frame is available in your choice of powder-coat, with a standard range and custom colours with an additional charge. It looks good with a range of Top choices, from Low Pressure Laminate, to Futura Ply, or Timber
