Designed with simplicity, versatility and cost efficiency in mind. The Pavilion table system is created from folded and tapered mild steel legs and modular beams. Finished in a powdercoat colour of your choice and sits on black nylon glides. Flat packed or fully assembled saving on installation and freighting costs. So versatile it can be used in a variety of contexts and configurations including desks, meeting and boardroom tables. Hard wearing and strong, the Pavilion is perfect for commercial environments. New Zealand designed and manufactured. With a wide footprint and single to multiple stems, the Pavilion has the ability to support any size top - rectangular, square or round. Can be supplied with a top of your choice or as a base only.
