PROGRESSIVE CHARACTERISTICS

The mission was nothing less than to create a new generation of lacquered safes with an unmatched dynamic character. To shape this unique identity BUBEN&ZORWEG'S design and engineering

experts developed every single element of the all new TURBO with one goal in mind: Stand out from the crowd!

W 217 mm
D 105 mm

Weight:
60 gr.

4. GRIP

Inspired by racing and with its distinctive surface the GRIP handle guarantees a perfect touch every time you need to access your valuable objects. With its dynamic outline and modern approach it forms the center of your new TURBO.

Attribute:
Access & Control

Composition:
Stainless Steel
Carbon

Dimensions:
H 28 mm
W 186 mm
D 84 mm

Weight:
1600 gr.

THE PODIUM

Celebrate your victories!

2x number one

No doors. Only a PODIUM which offers the perfect stage for your victories. You can choose between 2 editions. Whether you decide for the Lacquered Version with a metallic racing lacquer or for the Carbon Version with a full high-tech carbon fiber you will always have something to celebrate when opening your TURBO.

YOUR PODIUM YOUR CHOICE

Available in two design editions the PODIUM marks the face of your new TURBO.

TURBO CARBON

With a perfect ratio between weight and hardness, molded under pressure with up to 6 bar at temperatures up to 180°C (356°F) the TURBO CARBON convinces with its pitch black and stylish look.

TURBO LACQUER

With several grinding, priming and polishing steps, ten layers of paint and the addition of special metal flakes the TURBO LACQUER impresses with its bright and expressive appearance. There are numerous color options available for your personal PODIUM.
