THE MECHANISM

CERAMIC GRINDING MECHANISM - DURABILITY & RELIABILITY

**3 GRINDING
OPTIONS:**
FINE, MEDIUM
& COARSE

**CERAMIC
GRINDER
MECHANISM**

CERAMIC MECHANISM: It allows the consumer to use either salts, peppercorn and/or blends, as it will not erode, like a stainless steel mechanism.

VERSATILITY: Another advantage of a ceramic spice grinder is that it is made of a non-porous material, which means that it does not absorb odors or flavors. This makes it safe to reuse the grinder with a variety of different spices, even if you have previously used it to grind a completely different spice.

SIZE SETTINGS: One of the key features of our spice grinder is the ability to adjust the grind size. This is an important feature because it allows the user to control the seasoning and texture of their dishes, which can be critical for achieving the desired flavor profile. The grind size can typically be adjusted by rotating the base of the grinder or by tightening or loosening a screw at the top.
